NO OFFICIAL NEWS.

The Naval Department Has Nothing to Say.

Will Have No Information to Report for a Few Days.

Are Awaiting the Report of the Court of Inquiry.

Spain Greatly Worried Over the Situation --Actively Seeking for More War Vessels.

WASHINGTON, March 1.—Two weeks ago tonight the battleship Maine was destroyed in Havana harbor, and in spite of the greatest diligence on the part of the officers charged with an inquiry into the affair, the cause of the disaster is still shrouded in mystery, so far as any officials in Washington know. Few officials acquainted with the formidable obstacles in the way of the operations of the divers are surprised at this state of affairs and it is beginning to be generally realized that upon the testimony of the divers almost altogether will depend the success of the inquiry.

Meanwhile the officials of the navy department have reached the conclusion that harm is being done by the broaching of theories to account for the explosion, so notice has been served upon the experts who have been heard from in the press that it is preferred they shall not longer discuss this matter in advance of the report of the court of inquiry. One reason for this action was the fact that the department was finding itself committed involuntarily to the support of the theory that the explosion was of internal origin, while, as a matter of fact, both Secretary Long and Assistant Secretary Roosevelt have been at great pains to show that the department stood entirely neutral as between the theorists and were prepared to accept only the conclusions of the court of inquiry as binding upon it. In consequence of this decision there is less disposition manifested among the naval officers to talk about the Maine affair in any phase.

An indication that the court of quiry is either far from having reached any conclusion or else is disposed with a view to meeting future criticisms to collect all possible evidence, whether it be deemed essential or not, hence the call to their assistance of experts. It has already been a matter of comment that with all the ability comprised in this court of inquiry it has one weak spot, namely the lack of practical experience of the construction of a ship in its members. This is no part of the duty of a line officer, so that no reflection is carried by the statement. To remedy their shortcomings the court has called upon the department to send to their aid a constructor and a carpenter, and in compliance with the request Secretary Long has directed Naval Constructor Hoover and Carpenter Helm to report to the court at Key West. It is expected that they will go to Havana when the court returns there and from their familiarity with the structure of the Maine, on which both of these men worked when she was built in the New York navy yard, they will be of great assistance, not only in suggesting easy methods of work for the divers, but also in identifying portions of the wreck. The latter consideration is one of the greatest importance, in view of the statements that have come from Havana to the effect that some of the ship bottom plates have been found in the debris above water. It is said at the department that if this is true, the fact will be of importance. But, it is added, it would not be necessarily conclusive evidence as to the source of the explosion, for it is conceivable that as the vessel was blown up it might easily have pulled up with it some of the frames and bottom plating which are rigidly attached by rivets. Without doubt the two experts will be much better qualified than the line officers or divers to identify any such piece of plate.

No orders have gone out from the department to the vessels of the squadron today, and the officials stamp as without foundation the report that the squadron was yesterday ordered to be held in readiness to sail for Havana. Likewise it is said that no selection has yet been made of the cruiser to proceed to Havana, but it is likely, in case the court of inquiry should desire to make the return trip to Havana in a cruiser, that Admiral Sicard would be allowed to make his own selection from among the vessels of his fleet.

No advices have been received at either the state or navy department that would warrant the statement that the Spanish officials in Havana have attempted to interpose any obstacles to the prosecution of the work of the wreckers on the Maine's hull. It is said that the very last phase of this matter was sent out—the published dispatch of Assistant Secretary Day authorizing the Spanish government to prosecute an independent investigation by its own divers into the cause of the Maine. The department has not withdrawn that permission.

WHAT GOMEZ WILL DO.

Will Attack Havana by Land When White Squadron Opens Fire.

NEW YORK, March 1.—"On the day that the white squadron opens fire on Havana Maximo Gomez will begin an attack by land. He will keep on fighting until Havana surrenders or nothing is left of it but a heap of ruins."

These words were used in Tampa, Fla., to a World correspondent by Emilo Nanez, of New York, who commanded the fillibustering expedition which has been landed in Cuba from the steamer Dauntless. Capt. "Dynamite" Jack O'Brien has returned to Tampa with Colonel Nunez. They left for New York last night.

"I am just back from Cuba," Col. Nunez said: "Cuba, which is now almost free. Our little steamer carried two allotments of arms and ammunition. We made one landing at Oriente, where we left a large quantity of rifles and dynamite for Calixto Garcia's command. Then we put about and steamed along the entire length of the Cuban coast to Pinar del Rio province, where we placed the remainder of our cargo in the hands of General Diaz, who commands our forces in that part of the island. Trouble with Spaniards? Of course; but Spaniards are not clever enough to stop an expedition if they tried, and it never seemed to me they tried very hard.

"At Key West I had a long talk with Dr. Guiteras, who is the surgeon attending the wounded sailors of the Maine. He told me that one poor fellow asked him the meaning of the Spanish words 'Mata-lo.' The doctor told him that it meant in English 'kill him.' The sailor shuddered. 'I jumped overboard when the explosion took place' he said, 'and swam to a fishing boat. A man in it knocked me off with an oar and said 'Mata-lo, Yankee.'" That shows you the way Spaniards love Americans. Every one in Cuba knew of the Maine disaster twenty-four hours after it occurred. Our underground railroad is almost as quick as the telegraph.

"Garcia is now beseiging Bayamo and General Pando, with 25,000 men, is trying to force his way up the Cantes river to dislodge him. In the open country, between Marcia and Havana, Gomez is slowly but surely working toward the capital burning as he goes. As Blanco recalls his troops to protect Havana Gomez draws nearer from the east and Rodrigeuz and Diaz from the west. They all expect that the United States will declare war. The moment that happens they will mass their forces and co-operate with the United States fleet, Havana will fall and Cuba will be free."

HENRI ROCHEFORT WRITES.

NEW YORK, March 1.—A dispatch to the Herald from Paris says:

In the Intransigeant Henri Rochefort writes: "To really grasp the situation the explosion on the Maine must be regarded as the first battle between Spain and the United States. As for us, we only see in it the last stage of the advance of the Cubans toward independence. The catastrophe has caused the death of 254 unfortunate sailors, but it has also saved the lives of millions of combatants, for it ensures the final triumph of the insurrection before many weeks."

ALL SPANIARDS NOT FOR SPAIN.

SANTA FE, N. M., March 1.—"If the Maine disaster should be shown by the court of inquiry to be due to Spanish treachery," said Governor Otero, "the transfer of all Spain's West Indian possessions to the United States would not, in my judgement, be sufficient atonement for the outrage, and our government would be justified in deferring all negotiations for indemnity until merited chastisement had been inflicted. Cuba's freedom is not necessarily involved in this affair of ours. In case of war, New Mexico's Spanish speaking soldiery will be found at the front with the United States troops."

WILL REDUCE TARIFF.

Spain Opens Her Ports to American Grain.

MADRID, March 1.—The premier, Senor Sagasta, is quoted in an interview as saying that he expects very satisfactory news from Cuba before April. In the course of the same interview Senor Sagasta says: "In view of the increase in the price of grain in Spain the government has decided to reduce the import dues." A decree on this subject is momentarily expected. A meeting of the cabinet has been arranged for tomorrow. It is believed this step will be taken owing to the receipt of more reassuring news from the United States.

NEWS SUPPRESSED.

CONSTANTINOPLE, March 1.—The press censor suppressed the news of the attempt made on Saturday last to assassinate the king of Greece. The newspapers were prohibited from even mentioning the thanksgiving services, in commemoration of his majesty's escape from death, celebrated at the Greek legation.

CABINET TALK.

The Maine Disaster Comes in for a Share.

Several Theories Discussed and Laid Aside.

No News of Importance From Havana.

The Lake City Outrage, Wherein a Postmaster Was Murdered, Receives Official Notice.

WASHINGTON, March 1.—The meeting of the cabinet today, at which all the members were present, disclosed the fact that the government is still without news regarding the cause of the disaster to the Maine.

Up to this time the court of inquiry has not indicated in any way the trend of the investigation. The president and the members of the cabinet are as completely in the dark as to the evidence so far adduced disclosed as they were on the day after the explosion.

At today's meeting the cabinet discussed a number of the theories which have been advanced as to the cause of the explosion, but nothing approaching a definite conclusion was reached.

Another matter which engaged the attention of the cabinet was the brutal murder recently of the colored postmaster and his infant child at Lake City, S. C., by a mob of a hundred or so white men.

Following the cabinet meeting today, a report was circulated to the effect that Secretary Long had stated that the element of Spanish responsibility had been eliminated from the incident of the disaster to the Maine.

WILL GO TO CUBA.

Senators and Congressmen Will Visit the Island.

WASHINGTON, March 1.—A party of senators and members of the house will leave Washington at 4 o'clock today for a trip to Cuba. They go by train to Fortress Monroe and from there will take a private yacht for Havana. The party will consist of Senators Gallinger, Thurston and Money, and Representatives Amos J. Cummings and William Alden Smith and their wives. Senator Thurston said today that the trip was undertaken for the purpose of making a personal investigation into affairs in Cuba. "It is not," he said, "in an sense an official tour, but it will naturally give us a better opportunity for investigation than we can possibly have from this distance." He said the party would be absent about ten days, which would allow several days in Cuba. Senator Gallinger said in reply to a question that he had not exchanged a word with the president about the trip and that it was purely a private undertaking for the purpose of making a personal inspection.

HUNTING WAR SHIPS.

Spain Looking Around for More Vessels.

MADRID, March 1.—Greater anxiety is visible here, in regard to the verdict of the United States naval court of inquiry into the loss of the battleship Maine, than was apparent a week ago. The constant rumors of possible hostilities are harrassing and weakening the government and they are also trying the patience of the public. The "jingo papers" publish exhaustive dispatches from New York and Washington to the effect that the relations between the United States and Spain are hourly becoming more strained, and attributing to President McKinley a series of anti-Spanish declarations. Admiral Bermejo, the minister of marine, is actively seeking the best means to procure additional warships.

THE VIZCAYA

Will Be Royally Received in the Harbor at Havana.

HAVANA, March 1.—There is a strong breeze blowing today and active preparations continue for the public welcome to be accorded to the Spanish cruiser Vizcaya which, the Spaniards hope, will arrive here today from New York. Senator Proctor, after his visit to Captain General Blanco today, will make arrangements to take a trip to the provinces, probably first going west to Pinar del Rio. He will accompany Mr. Elwell, Miss Clara Barton's business manager. The steamer Monteviedo left Havana for Barcelona last evening with about five hundred soldiers on board, some invalided and others whose time of service had expired. There is no word from the divers, thus far today, of any work of importance.

PESSIMISTIC.

Paris Newspaper Takes Dark Views of America's Future.

PARIS, March 1.—The French newspapers generally do full justice to the attitude of the United States in view of the loss of the battleship Maine, although they contend that the "jingo newspapers have dangerous influence."

The Temps is inclined to be pessimistic. It refers to the warlike spirit of the Americans and the pride of the Spaniards, "who, if an indemnity were demanded in case the disaster proves to be the result of a crime, might refuse point blank, haughtily indignant at the thought that any one could suppose them guilty," and continues: "Cuba is a royal morsal which tempts a people intoxicated by their strength and convinced that Monroeism is the alpha and omega of international law. But, it is still to be hoped, that the conservative forces are so powerful that they will at the last moment stop the people and the government on the threshold of an adventure which would be not only big with the gravest consequences from an international point of view, but which might induce at home a sort of revolution, and the development of the most dreadful phase of Casearism, that evil which gnaws the vitals of every democracy."

EIGHT-HOUR LAW.

Utah Measure Wins a Victory in the Supreme Court.

Highest Tribunal in the Land Passes Upon Labor Legislation and Says It Is All Right.

WASHINGTON, D. C., March 1.—In the supreme court an opinion has been handed down in the case of E. F. Holden against the sheriff of Salt Lake county, Utah, involving the constitutionality of the territorial law fixing a day's work in smelters and mines in the territory at eight hours. Holden was arrested for violating the law and sentenced to imprisonment for the offense. He brought the case to the supreme court in an effort to secure a writ of error on the ground that the law was unconstitutional in that it was calculated to deprive a citizen of life or liberty without due process of law. The court held that such was not the case, but that the law was an exercise of the state's police powers.

Justice Brown said in passing upon the case that it was not the intention of the court to pass generally upon the constitutionality of eight-hour laws, but that in so far as state laws were exerted for the protection of the lives, the health or the morals of a community there could be no doubt of their propriety or of their constitutionality. There could be no doubt of the exceptional and unhealthful character of work in smelters or mines because of bad air, high temperature and noxious gases, and hence the wisdom of the state legislation. The decision of the supreme court of Utah was affirmed in yesterday's opinion.

PAID TOO MUCH.

Trial of Mayor Good, of Springfield, Ohio, Under the Garfield Law.

SPRINGFIELD, Ohio, March 1.—In the circuit court yesterday afternoon began the hearing in the case against Mayor John M. Good, brought in quo warranto by Attorney-General Monett under the Garfield law for excessive election expenses. The law allows $139. Good's returns to county clerks show expenses on nomination $5, election $45. John Kinnane, treasurer of the democratic central committee, testified that they collected $574 and paid out $245 to his knowledge; the remainder disappeared and he did not know what became of it. Good siad to him that he would not go through it again for $5,000. He thought Good's election cost him over $1,200.

A ROYAL DIVORCE.

Prince Phillip, of Saxe-Coburg Gotha, Wants a Separation.

VIENNA, March 1.—Prince Phillip, of Saxe-Coburg Gotha, has taken the preliminary steps to obtain a divorce from his wife, the Princess Louise, of Belgium, eldest daughter of King Leopold. The case will be heard after the marriage of their daughter, who is affianced to the younger brother of the empress. Prince Phillip fought a duel on February 18 with Lieutenant Mattachich-Kelevitch under stringent conditions, first with pistols and then with swords. The prince was severely wounded in the righ arm. The cause of the duel dates from a year back, when the love affairs of the Princess Louise, who eloped with the lieutenant, were the talk of Vienna.

BIG GOLD EXPORTS.

London Financiers May Appeal to Bank of France for Aid.

LONDON, March 1.—The money market continues to be very tight and there is little prospect of early relief. She commercial demand for gold to the United States continues to be very pressing and according to reports is causing exporters to sound the governors of the Bank of France as to whether they will allow some of that bank's gold to be withdrawn for export to New York.

THOMAS R. MARSHALL

Brings Suit to Test the Township Trustee Law.

INDIANAPOLIS, Ind., March 1.—By direction of the democratic state committee, Thomas R. Marshall, the member from the Twelfth district, has begun an action in court at Columbia City to have the law extending the terms of township trustees declared unconstitutional.

Jamestown's Mayor Assigns.

JAMESTOWN, N. Y., March 1.—Mayor Owen F. Price has made a general assignment for the benefit of his creditors. An overload of real estate was the cause.

GAY SHIRLEY CITY.

A Lively Time in the Maumee Metropolis.

Fight Marks the Close of Church Services.

Bernard P. Harris Mauled by William Wallace.

Latter Charged With Deadly Assault--George Stapleton Arrested--Justice Driver Fined--Court News.

When Shirley City, yclept Woodburn, the frettul metropolis of Maumee township, cannot furnish business for a justice court it is time to feel the pulse of that community to discover what is wrong. There was a right torrid time in the town last Friday night and the sequel was developed in Justice Tancey's court today.

A meeting was held in the Shirley City church and when the doxology had been sung with fervor by the congregation and the benediction pronounced by Rev. Mr. Singer, every body went outside, leaving the janitor to blow out the lights and lock up. Janitor Bernard Preston Harris was just making his exit from the sacred edifice with a lamp in his hand when he was accosted by one William Wallace, a man of bad repute, who informed the janitor in terms sulphurous that he had long cherished a desire to bleed him and proposed then and there to do it. Bernard Preston Harris held the kindly light while the belligerent Wallace pasted him o'er and o'er with knotted knuckles, badly cutting one eye and inflicting other injuries. While the battle was in progress Rev. Mr. Singer returned to the church and was about to interfere, when George Stapleton, ally of Wallace, seized him and with language exceedingly shocking to the ecclesiastical ear, forcibly thrust Rev. Mr. Singer from the vicinity. When Wallace had sufficiently pounded Mr. Harris, he repaired to the judicial mill of Justice William Driver and entered a plea of guilty to assault and battery and was fined $1 and costs, $5.75 in all. But this did not settle it for Bernard Preston Harris came to Fort Wayne and filed an affidavit against Wallace charging him with assault and battery with intent to murder against Stapleton with assault and battery. Sheriff Melching, Deputy Sheriff Lindermuth and Constable Roebke went to Woodburn this morning with warrants. They arrested Stapleton, but Wallace had fled to Antwerp, Ohio, whither Officer Lindermuth went in pursuit. Stapleton was brought to this city and arraigned in Justice Tancey's court. He gave bond in the sum of $100 for his appearance tomorrow morning.

Deputy Lindermuth telegraphed from Antwerp that he had Wallace under arrest and would bring him at once to Fort Wayne.

TWO LOADS OF CORN.

When Bernard Preston Harris was filing affidavits he did not stop with the two men who had a hand in assaulting him. He filed another that seriously involves the dignity, if it does not utterly threaten the stability, of the judiciary of Shirley City. Bernard Preston Harris charged that recently his honor Justice Driver was in an unbecoming and unmitigated state of public intoxication. A warrant was forthwith issued and was sent along with the others for service. It was found upon arriving in Shirley City that the bibulous Dogberry of Maumee was en route to Fort Wayne with a load of corn—not the load he carried the other day, but a load of golden grain in its virgin, unshelled and unfermented state. Notice was sent to this city and just as Judge Driver was driving over the Columbia street bridge he was met by Deputy Sheriff Stout who placed the Maumee court under arrest and hustled it incontinently before Justice Tancey, where the court acknowledged both the corn and the consequences thereof. He was fined $1 and costs, on which he took a stay of ninety days. In addition to mulcting the judge from Shirley, Justice Tancey administered a glowing homily on the dignity of courts, the purity of the judiciary, and the beauties of sobriety. Judge Driver then marketed his corn and went home.

OTHER NEWS OF THE COURTS.

Peter E. Pickard has qualified as administrator with the will annexed of the estate of the late Thomas P. McCullough.

A petition has been filed asking that Fritz Gilbert, of St. Joe township, be declared of unsound mind.

In the superior court Wm. Moellering was given a judgment for $503 again Joseph Derheimer et al.

The hearing of the matters pertaining to the Abbott estate has been concluded in the circuit court and there will be a special finding of facts upon which conclusions of law will rest.

Benjamin Saunders has been appointed guardian for Ella G. McCullough, a minor.

The circuit court is engaged in hearing matters in relation to the Consolidated Street Railway company.

The late Andrew Shorb, of Whitley county, left an estate in excess of $75,000, with ten heirs, some of whom had already received advances. These heirs have appointed a board of arbitration and have given bond in the sum of $1,000 each to abide by the appointment. The object is to avoid litigation and court costs.

HUNG THEMSELVES.

And Hez Hughes Is Not Guilty of Murder.

Evidence Goes to Show That the Victims of the Versailles Outrage Were Their Own Executioners.

INDIANAPOLIS, March 1.—A special to the News from Dillsboro, Ind., says: Justice Craig, at Cross Plain, this morning rendered a verdict acquitting Hez Hughes, who was charged in an affidavit filed by Governor Mount with complicity in the Versailles lynching. Attorney General Ketcham is en route from Indianapolis. In an interview he stated that: "It is evident from all the evidence obtainable that the five men broke jail and hung themselves."

LOCAL LINES.

Miss Iva Maxwell, of East Wayne street, is very ill.

Merton Marston, city editor of the Laporte Herald, has started for the Klondike.

Contributions for the Cuban sufferers will be received today and tomorrow at the city Y. M. C. A. building from 8 a. m. to 10 p. m. Everybody should bring their little mite.

Wayne Tent, Knights of Maccabees, will take action upon some matters of great importance to the order at the next meeting, Thursday evening, and it is necessary that there be a good attendance.

Frank Hilgeman was tendered a reception last night by his brother lodgmen of the Knights of the Golden Eagle. It was a thoroughly enjoyable affair. Mr. Hilgeman was presented with a fine umbrella.

The entertainment given under the auspices of Mad Anthony Hive, No. 27, Ladies of the Maccabees, at Harmony hall last evening was largely attended and the audience was delighted with the work of Charles Guinness, "The Soldier Poet," and Miss Josephine Reiley, the Shakespearian reader. Both performers seemed in their element and there is no doubt that if they repeat their entertainment in the city they will have a large audience.

After a three months' sojourn in Fort Wayne Rev. Z. Nye leaves this evening at 7:45 for New York. Mr. Nye is engaged in special rescue work and has done a great deal of work in this city, both in the churches and out of them. In leaving, Mr. Nye asks THE SENTINEL to express his sincere thanks to the many persons he met here and by whom he says he was treated with such uniform kindness. From these persons he says he received many expressions of love and sympathy in the good work he is doing. Especially does he wish to remember the different churches and congregations which he was helping and the young men and members of the Railroad Y. M. C. A. He rejoices in the fact that he was permitted just before he left to hear the stillness of the City Y. M. C. A. building broken with the earnest prayers in a grand revival. He hopes the hearts and pockets of the citizens of Fort Wayne may be taught to open again this soul-giving station.

THE OIL FLOWS.

Paying Quantities in the Hartzell Well at New Haven.

It Is Equal in Quality to North Lima Oil.

Directors of the Company Elated at Prospects.

More Than One Thousand Feet of Oil Is Now in the Well--Will Drill Deeper and Put in Pumps.

There is hardly a doubt now that oil can be found in paying quantities in Allen county.

Last evening, about 5 o'clock, the drillers in the Hartzell well near New Haven struck oil in what is supposed to be paying quantities. At 8 o'clock the oil had risen in the well 500 feet and before noon today was up 1,000 feet.

The prospectors have been waiting for good weather ever since the gas in the well played out, firm in the belief that in the twenty-seven feet of sand there was a big supply of oil, and it seems their hopes are to be realized. The drillers have been at work only two days and at an additional depth of thirty-five or forty feet have struck oil in large quantities. They will continue to a depth of seventy-five or eighty feet and are confident that even should there be a flow of salt water it can be easily separated from the oil.

Many of the local directors went down to the well today and are highly elated at the prospects. The former shooting of the well has so imbedded debris in the bottom that it is hard drilling and the flow of oil is somewhat obstructed. A sample of the oil brought to this city indicates that it is equal to the North Lima oil, which is as good as any found in this section of the country.

So confident are the directors of the Hartzell compauy that they have decided to purchase pumps and large oil tanks and take them to the field as soon as they can be delivered. The well will then be shot and its capacity can be derermined. Other wells will be drilled as soon as the present one is thoroughly tested.

SET FOR APRIL 5.

Date Selected for the Democratic City Convention.

The Primaries Will be Held April 4--The Delegate Representation Increased.

The meeting of the democratic city central committee in the city clerk's office last evening was largely attended, and all those in attendance expressed satisfaction at the outlook. Chairman Allen Hamilton presided, and H. W. Buck was elected secretary to succeed Thomas McGee, resigned. Without much discussion the committee decided to hold the primaries Monday, April 4, and the convention the day following, bringing the democratic primaries on the same day as the republican city convention. A resolution was passed to the effect that all candidates must give in their names before March 28, or their names will not appear on the tickets. A committee, consisting of Messrs. A. I. Friend, W. F. Ranke and H. C. Berghoff, was appointed to secure a room for the committee meetings and also secure a hall for the convention. An important act of the committee was the adoption of a resolution to increase the basis of representation in the convention. On motion of Mr. Berghoff it was decided to make the representation one delegate for every sixty votes cast for Mayor Scherer two years ago, increasing the number of delegates in the convention from seventy to eighty. A number of candidates for counil attended the meeting. The committee will meet again next Monday evening.

DEATHS AND FUNERALS.

Last evening a telegram conveyed to Mrs. J. D. White, of 30 Lillie street, the sad intelligence of the death of her sister, Mrs. Josephine Pyle, of Wabash, Ind. The deceased had long been in poor health, but until yesterday was able to walk about the house and no one realized the seriousness of her condition until an hour or two before her demise. Mrs. Pyle was the wife of Frank Pyle, who has been engaged in the painting and paper hanging business in Wabash for several years. She frequently visited her sister in this city and had quite an extensive acquaintance here. The funeral will take place tomorrow afternoon at Wabash and will be attended by the relatives from Fort Wayne.

SCHORR.

Clara Catherine, nine-months-old child of Mr. and Mrs. A. J. Schorr, died this morning of spasms, at the home of the parents, on East Elizabeth street, near the feeble minded institute. The funeral will occur Thursday morning at 9 o'clock from St Mary's Catholic church.

TAGTMEYER.

Mrs. Anna Tagtmeyer, wife of Fredrick Tagtmeyer, who for years has been the night watchman at the Old National bank, died at their home at 662 South Calhoun street, yesterday at 1:30 o'clock. The deceased had long been a sufferer from cancer of the stomach and death resulted from this malady. Besides her husband she leaves five grown children. The funeral will occur Wednesday afternoon at 2 o'clock from the residence.

THE CHANGE MADE.

Messrs. Rurode and Krimmel Become the Owners

Of L. B. Root's Stock in the Dry Goods Store of Root & Co--Will Be Known as Rurode & Company.

Messrs. E. C. Rurode and [illegible] Krimmel have completed the negotiations with the administrators of the estate of the late L. B. Root and purchased all Mr. Root's interest in the big dry goods store of Root & Co. The firm will hereafter be known as Rurode & Company, the company being Mr. Krimmel and several employes of the firm who have grown up in the store. It is not determined which of the employes will be stockholders, but Mr. Rurode will deal fairly with all who have been faithful and competent in their duties at the store. The articles of incorporation are being prepared by Attorney Samuel Morris and will not be filed for several days.

Messrs. Rurode and Krimmel are well known and experienced business men of Fort Wayne. For almost forty years has Mr. Rurode been connected with the Fort Wayne branch of Root & Co. He was one of the original stockholders when the store was established in 1860, and two or three years later became the manager, which position he has held ever since. He is a thorough dry goods man, understands the wants of his customers, always handles the best goods in the market and has ranked has establishment alongside the best in the country. The high standard attained in the past will be maintained by the new firm, which promises to reach the acme of perfection in its line

PETITION FOR BRICK.

Leith Street Residents Will Ask for a Pavement.

A Petition Being Circulated Among the Property Owners on That Thoroughfare.

It is certain that if the board of public works grants all the petitions for street pavements asked for this spring Fort Wayne will have as many paved streets as any city in the country. This morning a petition was prepared by the board of public works for circulation among the property owners on Leith street. A resident of the street called at the office and secured the petition, which he is confident will be signed by a big proportion of the resident property owners. The petition unlike most of those circulated recently, will ask for brick and not asphalt. It is proposed to pave from Hoagland avenue to Lafayette street. The board of works has petitions on file now for more streets than the city can afford to build, but this does not prevent property owners from filing others and allowing the board to make selections of such streets as it is believed most need the improvements.

A TOLERABLE criterion of the self-poise of the people may be found in the passiveness of Hon. Joseph Bombshell Foraker.

IN THE face of a real grave national crisis Hawaiian annexation is discovered not to be the peg upon which the destiny of the country must hang.

THE "spirit of '76," though decently quiet, is very much alive in this land. Should war come Spain will find our soil has been sown broadcast with dragon's teeth.

IF the naval court of inquiry succeeds in solving the mystery of the Maine's destruction it will establish itself as a capable body to investigate the greater mystery that involves the disappearance of Councilman Schuler's curfew ordinance.

THE Vanderbilts, the Belmonts, the Van Alens, the Havemeyers and other millionaire owners of palaces along the cliff at Newport, have had a war scare and are making arrangements to remove the immensely valuable furnishings and bric-a-brac from their houses to places of safety before a Spanish fleet comes that way and pounds the whole wealthy display into heaps of ruins. Let us hope these wild alarms are ill-timed and unfounded.

SO LONG as the government is bustling with every sort of preparation for war it must expect its assurances of peace to be discounted by the people. However, that is no reason why anybody should get excited and begin shooting Spaniards. Wait. If there must be a fight there will be plenty of time for it.

AS THE public mind is greatly centered on naval matters now, attention is called to the fact that it was eighty-five years ago, February 25, 1813, that the American cruiser, Hornet, under the brave Captain Lawrence, met and utterly destroyed the proud British brig Peacock. That gallant officer was killed in a subsequent naval engagement the following June. His dying words, "Don't give up the ship!" have become the motto of the navy.

BECAUSE Americans have not become a nation of total abstainers there are many persons inclined to believe that the temperance work of the last thirty or forty years has not accomplished much. Nevertheless figures can be produced to show that there has been a great decrease in the amount of drinking. In 1860 the annual yearly production of whisky was 2.86 gallons per capita, while today it is but .97 gallons. The temperance people should find much reason for encouragement in those figures and good cause to redouble efforts that have been so successful.

WHATEVER course is pursued by this government with respect to the destruction of the Maine will be based on the finding of the naval court of inquiry. Until that court has completed its investigations and made its report the people may as well keep cool and wait until there is certainty of war before stripping for a fight. The government is diligently getting ready for the worst that may happen and if the worst does happen fighters will then be needed, quite a few thousand of them. But this sanguinary zeal to go forth at once and convert Spaniards into stark and unlovely mortal remains when there are no Spaniards to be got at has all the absurdity of bombast. Keep cool. Don't get ready to do something until you know what's going to turn up. Hive your warlike energy in a storage battery where you can draw on it if need be. War will furnish plenty of national disturbance when war comes. Let us enjoy peace while peace lasts.

THE series of gospel meetings in the Y. M. C. A. building was inaugurated yesterday most auspiciously. The attendance at the noonday services and in the evening was large beyond expectation, the interest earnest and lively and the promise of fruitful results bright. The Ministerial association has decided to lend all aid in its power and this means that there will be a grand co-operation of Christian forces and influences. The ministers can unite in no more promising labor than in working together for the success of these meetings and there is no question that their most earnest efforts will be devoted to the meetings. There is a widespread belief that one of the results of the services will be to awaken an interest that shall culminate in the re-establishment of the City Y. M. C. A. and the restoration of the splendid building to the association and to the Christian purpose for which it was erected. Such a prospect as this should be sufficient to enlist the heartiest co-operation not only of the ministers, but of all Christian people. Let the meetings be given every aid to success.

EDWARD VERNEY, in an article on "The Inhabitants of Milk," states that if a drop of milk be mixed with gelatine and examined under a microscope some hours afterward it will be found that three different operations have taken place through the engineering skill of bacteria. In one part of the gelatine excavations have been made, in another little hillocks have been thrown up, and in a third liquid lakes have been formed. Through the careless methods employed in milking cows and the subsequent exposure of the fluid to contaminations it should never be used as a beverage except after heating at a temperature of 140 degres Fahrenheit. Of the infectious influences to which milk is open Mr. Verney mentions among others the non-rejection of the first flow from the udder of the cow, the dust and dirt on the coat of the animal and the unclean hands of the milker. From a cow where absolute cleanliness was enforced the milk contained only 330 bacteria. The same volume, taken under the usual conditions from a mixed herd, showed 15,000 bacteria. Professor Fleischmann says that thorough sanitary precautions are almost totally ignored in the milking of cows.

George Ungerer, formerly pressman for the Aldine Printing company, leaves Thursday for Chicago. Mr. Ungerer will remain in the "Windy City" if he is successful in securing a position. He is a first-class pressman, fully qualified to work in any pressroom.

Lafayette Courier: "Col. David N. Foster, of Fort Wayne, and Capt. C. J. Murphy, of Evansville, have been reappointed members of the board of trustees of the soldiers' home by Governor Mount. These gentlemen have served as members of the board ever since the establishment of the home and have been faithful in the discharge of their duties. Their reappointment is a just recognition of their ability and of the excellent work they have done and meets with the warmest approval throughout the state."

Mr. and Mrs. Robert Penman, who are sojourning in Mexico this winter, celebrated the second anniversary of their marriage in Cuernavaca, Mexico, on the 11th of February, at Hotel Eggers. The Two Republics says of the event: "The spacious parlors of the hotel were brightly illuminated, a fine orchestra furnished excellent music for dancing, a bountiful lunch was served in an adjoining room and the various liquid refreshments were abundant in quantity and of desirable quality. Solos were rendered by Mr. Penman and Mr. Ficq, with accompaniments on the guitar by Mr. Eggers and violin by Mr. Noyes. In addition to these attractions the dancing, social converse and numerous toasts and witty sayings combined to form a most delightful evening's entertainment."

On Thursday evening, March 3, at Harmony hall, there will be given an opportunity for every man or woman to test his or her motor powers. In fact it has been whispered that a large number of axes and saws have been ground and sharpened, and that a large number of hardware stores have been contemplating closing their doors because of an unprecedented dearth in hammers. The meaning of all these mysterious operations are not preparations for war with Spain—as some timid hearts have surmised, but simply a supper that will be given by the enterprising and good-looking gentlemen of Heidelberg Reformed church. There will be men cooks and men waiters—men with spotless aprons and men who will escort the feeble (?) visitors to their respective seats. Big men and little men, fat men and lean men. In fact the whole atmosphere will savor of men. The ladies are bent on viewing with each other in choosing the handsomest waiters and not a few of them will glance with pardonable contempt upon the weak (?) efforts of their opposite sex. But the gentlemen are determined to take revenge, and they will defy competition. Come and see them on Thursday evening. Bring all your formidable instruments along with you and attack the viands as you would the Spaniards.

The journeymen lathers of the city, at a meeting last night in Trades and Labor assembly hall, organized a union. The new union starts out with seventeen members. The organizing committee of the Trades and Labor council installed the new union. The following temporary officers were elected: President, Charles Ransbottom; vice president, Frank Crance; secretary, John J. Burg; treasurer, William Barnes; sergeant-at-arms, Peter Barnes. The next meeting will be held next Monday evening when formal application will be made for a charter from the American Federation of Labor. The union will also elect delegates to the Trades and Labor council at this meeting.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

BOARD OF WORKS.

Contract Awarded for Printing the Annual Reports.

Petition Filed for Asphalt Pavement on West Columbia Street--Other Business Transacted.

Yesterday the board of public works awarded the contract for printing the annual reports of the city departments to the Aldine Printing company. The price was 78 cents per page, for 500 volumes. The other bids received were: The Journal company, 84¾ cents per page; W. D. Page, 97 cents; J. M. Singmaster, 93 cents.

A petition, signed by nearly every owner of West Columbia street property, asking for an asphalt pavement, was received, and the engineer was instructed to prepare plans and specifications for the work. The street, from Calhoun street to Harrison, will be paved with asphalt block. It will be the first pavement of the kind in the city. A crossing at Barr and Berry streets was paved with block asphalt five years ago, and the wear has been scarcely noticeable. There is talk of having Calhoun street paved with this material, but it is said that the majority are in favor of sheet asphalt.

C. K. Fairfield and others petitioned for a street lamp at the corner of Fox avenue and Ferguson street. The request was filed.

Aaron Lischy and others offered a remonstance against the proposed building of a sewer in the alley west of Franklin avenue, from Spring street to Archer avenue.

To Grocers.

We have direct proof that peddlers of washing-powders say that the stuff they're selling is "made in the same factory" as **Pearline**— *and that buying from them will save going to, or ordering from, the grocery store.* Do you want people "saved" that. You have these same washing-powders in stock. Possibly you are giving them out, whenever you can, in place of **Pearline**. You are trying to push them into notice; they are trying to crowd you out. You think you are "making more money on them." But will it pay you, in the end? 545

Send it Back Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—*send it back.* JAMES PYLE, New York.

SETTLES NERVOUS BANKRUPTCY

Statistics show that ninety five per cent. of all persons engaged in business in the United States fail. Investigation shows that men who succeed are men of brains, strong nerves, great will-power. Ordinary food and drink cannot supply the vital force which people with active brains and body require. **Bicola Pills** feed the nerves, make the mind bright, muscles strong, MAKE FLESH AND BLOOD and new energy, and give perfect manhood with all that perfect physicial condition means. **Bicola Pills** are a great tonic FOR WOMEN—they give health and strength to the special organs and nerve centers. THE TURNERS OF PHILADELPHIA make **Bicola Pills.**

J. E. Buckey, Chief Clerk National Hotel, Washington D. C., testifies as follows: "I was all run down, had no appetite, troubled with sleeplessness, pains in the head, was a shadow of my former self. Your Bicola Pills have given me most wonderful relief. I have gained over twenty pounds, have a good appetite, sleep well and am my old self once more."

A WESTERN FIRM'S ENTERPRISE.

[Rochester Democrat and Chronicle, Thursday, February 24, 1898.]

"It is learned that the entire stock of piece goods owned by the Rochester Tailoring Co. tailors to the trade, which is discontinuing business, was bought last week by I. & A. Friedlich, proprietors of two large clothing houses in the west, the 'Sam, Pete & Max,' store of Fort Wayne, Ind., and the 'Utica,' of Des Moines, Iowa. The stock consists of between 7,000 and 8,000 yards of fine woolens, of a much better quality than is generally used in ready-made clothing, and was purchased at a very low figure. The buyers are now having the goods manufactured here under their personal supervision, thereby saving the profit of manufacture, and will be able to create something of a sensation in the cities named, as the circumstances of the purchase and manufacture will place them in a position to offer remarkable inducements."

The above announcement explains itself. All heavy Suits and Overcoats bought from the ROCHESTER TAILORING CO., which were finished, HAVE arrived, and

ARE NOW ON SALE AT OUR STORE.

All are high grade merchandise, made up in strictly first-class style, and which we now offer at prices which defy competition.

The circumstances of this large purchase enables us to offer unparalleled values in high grade MEN'S and BOYS' SUITS and OVERCOATS.

It took a lot of nerve to plank down such a large amount of money, as this purchase had to be paid for with spot cash. But having the interests of our patrons at heart, we had to take hold. Don't miss the opportunity. The values are stupendous.

STRUCK BY A TRAIN.

Robert S. Castle the Victim of an Accident.

Accidents, Incidents and Items of Personal Nature That are Gathered About the Depots and Shops.

Robert S. Castle lies in a precarious condition at Hope hospital. He received his injuries this morning while engaged in attending the switch lights at Glasgow avenue for the Nickel Plate. A passing freight train struck Castle and hurled him under a car which was standing upon the siding, his head striking the railway iron with such violence that it rendered him unconscious. He was picked up by the trainmen and carried into the Summit City Soap factory, where Dr. J. M. Dinnen examined his injuries and ordered him taken to the hospital. Besides the wound on the forehead, sustained by striking the rail, Castle is badly injured about the back and side, and his chances for recovery are not considered very good. The unfortunate man resides on Dwenger avenue and is employed as a teamster by the city. He attends the switch-lights for the railway company in the early morning and at night.

PERSONAL AND OTHERWISE.

Brakeman J. Johnson, of the Pittsburg, is sick.

Five Klondikers left this city, over the Pittsburg, this morning.

Charles Muhlenbruck, of the Pittsburg Machine shop, is sick and off duty.

H. Mennewisch, of the Bass blacksmith shop, is very sick with rheumatism.

Road Foreman A. H. Polhamus is on duty again after a severe illness of over a week.

Fred Lenz, a springmaker in the Pittsburg blacksmith shop, is kept from his work by sickness.

Pittsburg engine 44 was turned out of the shops today and engine 23 was taken in for repairs.

William Bloomhuff, of the polishing department of the electric works, is sick and off duty.

Two of the children of Machinist Louis Altevogt, of the Bass shops, are down sick with the measles.

G. M. Johnson, a flue cutter in the Pittsburg shops, is today attending to some private business in Hunton.

Machinist John Sinclair, of the Pittsburg shops, is attending a funeral of a relative in Van Wert today.

Nickel Plate Engineer Frank Telloy and Fireman D. Vreeland are taking a brief rest from their labors.

The electric works, which had been closed for inventory for several days, resumed operations this morning.

Nickel Plate Brakemen S. Stevenson and J. C. Heslen are taking a few days' lay off to look after some personal affairs.

There were two sections of Nickel Plate train No. 3 yesterday, the second train having a baggage car and seven coaches.

Sickness keeps Louis Gronau, of the Pittsburg planing mills from his work. Lee Ballard, a painter in the same shop, is also sick.

Contractor James M. Henry is erecting a house on West Jefferson street, which he will occupy with his family when it is completed.

A railroad in Texas has been granted special rates by the state railroad commission in order to meet the competition of the wagon roads.

G. R. Layher, who has been with the Wabash lines some years, has been appointed freight agent of the company at Buffalo, its new eastern terminal.

R. M. Biggs, of New York, is here measuring the Pennsylvania trainmen for their summer uniforms. He visits the city twice each year.

The bolt header in the Pittsburg blacksmith shop operated by Charles Barnes, is in operation again after an idleness of several days on account of repairs.

C. H. Newton, Wabash freight agent, has been very busy for several days preparing for the new way freight rates made necessary by the acquirement of the Buffalo division.

General Superintendent A. W. Johnston, of the Nickel Plate, was in the city over night, coming in on No. 5, in his private car, and leaving for Chicago by special train this morning.

Assistant General Foreman C. W. Hall, of the Pennsylvania shops at Wellsville, Ohio, was in the city yesterday packing up his personal effects and shipping them to his new home. He is pretty well pleased with his present position, but says that Wellsville, while a good place, does not come up to Fort Wayne in his estimation.

Nickel Plate engine 18 went to the Stony Island shops yesterday for general repairs. Engine 212 was turned out of that shop yesterday and sent to Conneaut to go into yard service.

This morning John J. Mossman assumed the office of division freight agent of the Wabash, with headquarters at St. Thomas, Ont. He will have charge of the entire Buffalo division of the line.

William Zuttermeister, of 18 McClellan street, returned home this morning, after a pleasant visit with friends and relatives in Richmond, Ind. He resumed his place in the electric works this morning.

Superintendent G. L. Potter returned from the east last night. He says there will be no new engines built in the Fort Wayne shops this year. There appears to be plenty of repair work to keep the men busy, however.

John Slater, the veteran blacksmith at the Pittsburg shops, is not recovering from his illness as fast as his friends would like. He is able to walk about, but is very weak and will probably not be able to work for several weeks.

The Crouch Construction company on Saturday moved its large steam shovel from Benton Harbor to Anderson, where a considerable amount of excavation is to be done in making contemplated improvements by the Big Four.

The railroad commissioners of North Carolina have ordered passengers fares, after March 23, reduced to 2½ cents per mile, first-class, and to 2 cents per mile, second-class. The roads will apply to the United States court for an injunction.

Mr. and Mrs. Ben McFerran, of 343 West Jefferson street, returned from Birmingham, Ala., this morning. They were the guest of relatives in that city about two weeks. Mr. McFerran is again at his desk in the Pittsburg store room department.

If the anti-scalping bill now before congress becomes a law, the eastern lines out of Chicago will establish a joint agency at a saving to the roads, it is stated, of at least $200,000 a year in office rent and clerical hire, and a number of men will be out of employment.

Horace Seely has resigned the office of commercial agent of the Wabash at Des Moines, Iowa, and the duties of Assistant General Freight Agent J. D. Lund have been extended to cover those formerly performed by Mr. Seely. Mr. Lund's headquarters are at Kansas City.

Christian Schlie, of Savilla street, and his family are preparing to move to Danville, Ill., where they will reside in the future. Mr. Schlie attends to the work of cleaning dining cars for the Wabash company, but as there are no cars of that character running on this end of the line, it was found necessary to transfer him to other quarters.

The Baltimore and Ohio Southwestern has changed its dining car system from table d'hote to la carte, with the result of increased profits, better service and greater satisfaction on the part of the patrons. The cars are open for business during the entire time they are on the train and the innovation seems to have met with the approval of the passengers.

KIHM IS HERE.

"Dummy" Arrived in Fort Wayne Last Evening.

Springfield Is Having Its Troubles at the Present Time—The President of the Club Resigns.

George F. Kihm, "Dummy," arrived in the city yesterday afternoon looking in better condition than at any time in the past two years. He has been training for his sparring match with Andy Yates and is hard as a rock. Not only does he promise to make a fine showing at the athletic exhibition next Friday night for the benefit of the base ball club, but he says he will "play the game of his life" and he looks as if he would. "Dummy" has nothing but friends in Fort Wayne and they were all glad to shake him by the hand.

SPRINGFIELD HAS TROUBLES, TOO.

Springfield Sun: "The Springfield Baseball association is once again confronted with a serious problem upon the solution of which depends, in great measure, the future of the club. President J. W. Garnier has resigned, and John Coleman stated last evening that it was his intention to resign as a director of the association.

"The problem is not one of finances, for the actual condition of the association now in this particular is as good or better than it was last year. The present board of directors, whatever may be said of their shortcomings in some respects, have not neglected the finances, but instead have exerted every effort to replenish a depleted treasury with a fair degree of success. The question which now menaces the club is a question of management, and the association, standing as it now does without a president, and, it seems, without a competent and available man for that position, faces an uncertain future.

"Ex-President S. L. Nelson, of the association, suggests a plan, which commends itself very favorably to the situation:

"'I am heartily in favor of turning this franchise over to Manager Whistler,' said Mr. Nelson, 'and I believe that if he had absolute control of it he would make it go. I am in favor of calling a meeting of the stockholders, going down in our pockets for enough money to pay off the old debt, buy the new uniforms and put up the $500 guarantee and then say to Manager Whistler: 'Here is the franchise and the equipment. Try it in Springfield and if the people show by their lack of patronage that they do not want a ball team, go where they do want you.'

"'I have been accused of wanting to get control of the club, but I will assure you that I am positively out of it and $4,000 in cool cash would not tempt me to undergo the ordeal of last years' experience.

"'I would be perfectly willing to stand much more than my proportionate share of the assessment necessary to carry out this plan, and am fully convinced that it offers the best way out of the present dilemma.'"

GANZEL A STAR.

Steve Griffin, who played with John Ganzel in Grand Rapids last year, writes: "Pittsburg has the star first baseman of the league in Ganzel. I used to shut my eyes and throw from short to him and he would root 'em up. He will lead the big league the same as he has done in the Inter-State and Western leagues."

$10 in cash given away each week at Reuben S. Patterson's.

The DePauw Glee club will appear at Westminster church in the near future. Negotiations in that direction have nearly been completed, the only matter not yet decided being the date of the entertainment.

Much interest is manifested in the gospel meetings now being held in the City Y. M. C. A. building. There was again a large attendance at the noon-day prayer meeting and many manifestations of spiritual interest which is bound to bring forth good fruits from the meetings. Last night the attendance was larger than anticipated. Addresses were made by Revs. Frame, Zartman and Cooper. Tonight the principal talk of the evening will be by Rev. Frame.

NO OFFICIAL NEWS.

The Naval Department Has Nothing to Say.

Will Have No Information to Report for a Few Days.

Are Awaiting the Report of the Court of Inquiry.

Spain Greatly Worried Over the Situation--Actively Seeking for More War Vessels.

WASHINGTON, March 1.—Two weeks ago tonight the battleship Maine was destroyed in Havana harbor, and in spite of the greatest diligence on the part of the officers charged with an inquiry into the affair, the cause of the disaster is still shrouded in mystery, so far as any officials in Washington know. Few officials acquainted with the formidable obstacles in the way of the operations of the divers are surprised at this state of affairs and it is beginning to be generally realized that upon the testimony of the divers almost altogether will depend the success of the inquiry.

Meanwhile the officials of the navy department have reached the conclusion that harm is being done by the broaching of theories to account for the explosion, so notice has been served upon the experts who have been heard from in the press that it is preferred they shall not longer discuss this matter in advance of the report of the court of inquiry. One reason for this action was the fact that the department was finding itself committed involuntarily to the support of the theory that the explosion was of internal origin, while, as a matter of fact, both Secretary Long and Assistant Secretary Roosevelt have been at great pains to show that the department stood entirely neutral as between the theorists and were prepared to accept only the conclusions of the court of inquiry as binding upon it. In consequence of this decision there is less disposition manifested among the naval officers to talk about the Maine affair in any phase.

An indication that the court of quiry is either far from having reached any conclusion or else is disposed with a view to meeting future criticisms to collect all possible evidence, whether it be deemed essential or not, hence the call to their assistance of experts. It has already been a matter of comment that with all the ability comprised in this court of inquiry it has one weak spot, namely the lack of practical experience of the construction of a ship in its members. This is no part of the duty of a line officer, so that no reflection is carried by the statement. To remedy their shortcomings the court has called upon the department to send to their aid a constructor and a carpenter, and in compliance with the request Secretary Long has directed Naval Constructor Hoover and Carpenter Helm to report to the court at Key West. It is expected that they will go to Havana when the court returns there and from their familiarity with the structure of the Maine, on which both of these men worked when she was built in the New York navy yard, they will be of great assistance, not only in suggesting easy methods of work for the divers, but also in identifying portions of the wreck. The latter consideration is one of the greatest importance, in view of the statements that have come from Havana to the effect that some of the ship bottom plates have been found in the debris above water. It is said at the department that if this is true, the fact will be of importance. But, it is added, it would not be necessarily conclusive evidence as to the source of the explosion, for it is conceivable that as the vessel was blown up it might easily have pulled up with it some of the frames and bottom plating which are rigidly attached by rivets. Without doubt the two experts will be much better qualified than the line officers or divers to identify any such piece of plate.

No orders have gone out from the department to the vessels of the squadron today, and the officials stamp as without foundation the report that the squadron was yesterday ordered to be held in readiness to sail for Havana. Likewise it is said that no selection has yet been made of the cruiser to proceed to Havana, but it is likely, in case the court of inquiry should desire to make the return trip to Havana in a cruiser, that Admiral Sicard would be allowed to make his own selection from among the vessels of his fleet.

No advices have been received at either the state or navy department that would warrant the statement that the Spanish officials in Havana have attempted to interpose any obstacles to the prosecution of the work of the wreckers on the Maine's hull. It is said that the very last phase of this matter was sent out in the published dispatch of Assistant Secretary Day authorizing the Spanish government to prosecute an independent investigation by its own divers into the cause of the Maine. The department has not withdrawn that permission.

WHAT GOMEZ WILL DO.

Will Attack Havana by Land When White Squadron Opens Fire.

NEW YORK, March 1.—"On the day that the white squadron opens fire on Havana Maximo Gomez will begin an attack by land. He will keep on fighting until Havana surrenders or nothing is left of it but a heap of ruins."

These words were used in Tampa, Fla., to a World correspondent by Emilo Nanez, of New York, who commanded the filibustering expedition which has been landed in Cuba from the steamer Dauntless. Capt. "Dynamite" Jack O'Brion has returned to Tampa with Colonel Nunez. They left for New York last night.

"I am just back from Cuba," Col. Nunez said: "Cuba, which is now almost free. Our little steamer carried two allotments of arms and ammunition. We made one landing at Oriente, where we left a large quantity of rifles and dynamite for Calixto Garcia's command. Then we put about and steamed along the entire length of the Cuban coast to Pinar del Rio province, where we placed the remainder of our cargo in the hands of General Diaz, who commands our forces in that part of the island. Trouble with Spaniards? Of course; but Spaniards are not clever enough to stop an expedition if they tried, and it never seemed to me they tried very hard.

"At Key West I had a long talk with Dr. Guiteras, who is the surgeon attending the wounded sailors of the Maine. He told me that one poor fellow asked him the meaning of the Spanish words 'Mata-lo.' The doctor told him that it meant in English 'kill him.' The sailor shuddered. 'I jumped overboard when the explosion took place' he said, 'and swam to a fishing boat. A man in it knocked me off with an oar and said 'Mata-lo, Yankee." That shows you the way Spaniards love Americans. Every one in Cuba knew of the Maine disaster twenty-four hours after it occurred. Our underground railroad is almost as quick as the telegraph.

"Garcia is now beseiging Bayamo and General Pando, with 25,000 men, is trying to force his way up the Cantes river to dislodge him. In the open country, between Marcia and Havana, Gomez is slowly but surely working toward the capital burning as he goes. As Blanco recalls his troops to protect Havana Gomez draws nearer from the east and Rodrigenz and Diaz from the west. They all expect that the United States will declare war. The moment that happens they will mass their forces and co-operate with the United States fleet, Havana will fall and Cuba will be free."

HENRI ROCHEFORT WRITES.

NEW YORK, March 1.—A dispatch to the Herald from Paris says:

In the Intransigeant Henri Rochefort writes: "To really grasp the situation the explosion on the Maine must be regarded as the first battle between Spain and the United States. As for us, we only see in it the last stage of the advance of the Cubans toward independence. The catastrophe has caused the death of 254 unfortunate sailors, but it has also saved the lives of millions of combatants, for it ensures the final triumph of the insurrection before many weeks."

ALL SPANIARDS NOT FOR SPAIN.

SANTA FE, N. M., March 1.—"If the Maine disaster should be shown by the court of inquiry to be due to Spanish treachery," said Governor Otero, "the transfer of all Spain's West Indian possessions to the United States would not, in my judgement, be sufficient atonement for the outrage, and our government would be justified in deferring all negotiations for indemnity until merited chastisement had been inflicted. Cuba's freedom is not necessarily involved in this affair of ours. In case of war, New Mexico's Spanish speaking soldiery will be found at the front with the United States troops."

WILL REDUCE TARIFF.

Spain Opens Her Ports to American Grain.

MADRID, March 1.—The premier, Senor Sagasta, is quoted in an interview as saying that he expects very satisfactory news from Cuba before April. In the course of the same interview Senor Sagasta says: "In view of the increase in the price of grain in Spain the government has decided to reduce the import dues." A decree on this subject is momentarily expected. A meeting of the cabinet has been arranged for tomorrow. It is believed this step will be taken owing to the receipt of more reassuring news from the United States.

NEWS SUPPRESSED.

CONSTANTINOPLE, March 1.—The press censor suppressed the news of the attempt made on Saturday last to asssassinate the king of Greece. The newspapers were prohibited from even mentioning the thanksgiving services, in commemoration of his majesty's escape from death, celebrated at the Greek legation.

CABINET TALK.

The Maine Disaster Comes in for a Share.

Several Theories Discussed and Laid Aside.

No News of Importance From Havana.

The Lake City Outrage, Wherein a Postmaster Was Murdered, Receives Official Notice.

WASHINGTON, March 1.—The meeting of the cabinet today, at which all the members were present, disclosed the fact that the government is still without news regarding the cause of the disaster to the Maine.

Up to this time the court of inquiry has not indicated in any way the trend of the investigation. The president and the members of the cabinet are as completely in the dark as to the evidence so far adduced disclosed as they were on the day after the explosion.

At today's meeting the cabinet discussed a number of the theories which have been advanced as to the cause of the explosion, but nothing approaching a definite conclusion was reached.

Another matter which engaged the attention of the cabinet was the brutal murder recently of the colored postmaster and his infant child at Lake City, S. C., by a mob of a hundred or so white men.

Following the cabinet meeting today, a report was circulated to the effect that Secretary Long had stated that the element of Spanish responsibility had been eliminated from the incident of the disaster to the Maine.

WILL GO TO CUBA.

Senators and Congressmen Will Visit the Island.

WASHINGTON, March 1.—A party of senators and members of the house will leave Washington at 4 o'clock today for a trip to Cuba. They go by train to Fortress Monroe and from there will take a private yacht for Havana. The party will consist of Senators Gallinger, Thurston and Money, and Representatives Amos J. Cummings and William Alden Smith and their wives. Senator Thurston said today that the trip was undertaken for the purpose of making a personal investigation into affairs in Cuba. "It is not," he said, "in an sense an official tour, but it will naturally give us a better opportunity for investigation than we can possibly have from this distance." He said the party would be absent about ten days, which would allow several days in Cuba. Senator Gallinger said in reply to a question that he had not exchanged a word with the president about the trip and that it was purely a private undertaking for the purpose of making a personal inspection.

HUNTING WAR SHIPS.

Spain Looking Around for More Vessels.

MADRID, March 1.—Greater anxiety is visible here, in regard to the verdict of the United States naval court of inquiry into the loss of the battleship Maine, than was apparent a week ago. The constant rumors of possible hostilities are harrassing and weakening the government and they are also trying the patience of the public. The "jingo papers" publish exhaustive dispatches from New York and Washington to the effect that the relations between the United States and Spain are hourly becoming more strained, and attributing to President McKinley a series of anti-Spanish declarations. Admiral Bermejo, the minister of marine, is actively seeking the best means to procure additional warships.

THE VIZCAYA

Will Be Royally Received in the Harbor at Havana.

HAVANA, March 1.—There is a strong breeze blowing today and active preparations continue for the public welcome to be accorded to the Spanish cruiser Vizcaya which, the Spaniards hope, will arrive here today from New York. Senator Proctor, after his visit to Captain General Blanco today, will make arrangements to take a trip to the provinces, probably first going west to Pinar del Rio. He will accompany Mr. Elwell, Miss Clara Barton's business manager. The steamer Montevideo left Havana for Barcelona last evening with about five hundred soldiers on board, some invalided and others whose time of service had expired. There is no word from the divers, thus far today, of any work of importance.

PESSIMISTIC.

Paris Newspaper Takes Dark Views of America's Future.

PARIS, March 1.—The French newspapers generally do full justice to the attitude of the United States in view of the loss of the battleship Maine, although they contend that the "jingo newspapers have dangerous influence."

The Temps is inclined to be pessimistic. It refers to the warlike spirit of the Americans and the pride of the Spaniards, who if an indemnity were demanded in case the disaster proves to be the result of a crime, might refuse pour blank, haughtily indignant at the thought that any one could suppose them guilty," and continues: "Cuba is a royal morsel which tempts a people intoxicated by their strength and convinced that Monroeism is the alpha and omega of international law. But, it is still to be hoped, that the conservative forces are so powerful that they will at the last moment stop the people and the government on the threshold of an adventure which would be not only big with the gravest consequences from an international point of view, but which might induce at home a sort of revolution, and the development of the most dreadful phase of Caesarism that evil which gnaws the vitals of every democracy."

EIGHT-HOUR LAW.

Utah Measure Wins a Victory in the Supreme Court.

Highest Tribunal in the Land Passes Upon Labor Legislation and Says It Is All Right.

WASHINGTON, D. C., March 1.—In the supreme court an opinion has been handed down in the case of E. F. Holden against the sheriff of Salt Lake county, Utah, involving the constitutionality of the territorial law fixing a day's work in smelters and mines in the territory at eight hours. Holden was arrested for violating the law and sentenced to imprisonment for the offense. He brought the case to the supreme court in an effort to secure a writ of error on the ground that the law was unconstitutional in that it was calculated to deprive a citizen of life or liberty without due process of law. The court held that such was not the case, but that the law was an exercise of the state's police powers.

Justice Brown said in passing upon the case that it was not the intention of the court to pass generally upon the constitutionality of eight-hour laws, but that in so far as state laws were exerted for the protection of the lives, the health or the morals of a community there could be no doubt of their propriety or of their constitutionality. There could be no doubt of the exceptional and unhealthful character of work in smelters or mines because of bad air, high temperature and noxious gases, and hence the wisdom of the state legislation. The decision of the supreme court of Utah was affirmed in yesterday's opinion.

PAID TOO MUCH.

Trial of Mayor Good, of Springfield, Ohio, Under the Garfield Law.

SPRINGFIELD, Ohio, March 1.—In the circuit court yesterday afternoon began the hearing in the case against Mayor John M. Good, brought in quo warranto by Attorney-General Monett under the Garfield law for excessive election expenses. The law allows $132. Good's returns to county clerks show expenses on nomination $5, election $15. John Kinnane, treasurer of the democratic central committee, testified that they collected $574 and paid out $245 to his knowledge; the remainder disappeared and he did not know what became of it. Good siad to him that he would not go through it again for $5,000. He thought Good's election cost him over $1,200.

A ROYAL DIVORCE.

Prince Phillip, of Saxe-Coburg Gotha, Wants a Separation.

VIENNA, March 1.—Prince Phillip, of Saxe-Coburg Gotha, has taken the preliminary steps to obtain a divorce from his wife, the Princess Louise, of Belgium, eldest daughter of King Leopold. The case will be heard after the marriage of their daughter, who is affianced to the younger brother of the empress. Prince Phillip fought a duel on February 18 with Lieutenant Mattachich-Kelevitch under stringent conditions, first with pistols and then with swords. The prince was severely wounded in the righ arm. The cause of the duel dates from a year back, when the love affairs of the Princess Louise, who eloped with the lieutenant, were the talk of Vienna.

BIG GOLD EXPORTS.

London Financiers May Appeal to Bank of France for Aid.

LONDON, March 1.—The money market continues to be very tight and there is little prospect of early relief. The commercial demand for gold to the United States continues to be very pressing and according to reports is causing exporters to sound the governors of the Bank of France as to whether they will allow some of that bank's gold to be withdrawn for export to New York.

THOMAS R. MARSHALL

Brings Suit to Test the Township Trustee Law.

INDIANAPOLIS, Ind., March 1.—By direction of the democratic state committee, Thomas R. Marshall, the member from the Twelfth district, has begun an action in court at Columbia City to have the law extending the terms of township trustees declared unconstitutional.

Jamestown's Mayor Assigns.

JAMESTOWN, N. Y., March 1.—Mayor Oscar F. Price has made a general assignment for the benefit of his creditors. An overload of real estate was the cause.

GAY SHIRLEY CITY.

A Lively Time in the Maumee Metropolis.

Fight Marks the Close of Church Services.

Bernard P. Harris Mauled by William Wallace.

Latter Charged With Deadly Assault--George Stapleton Arrested--Justice Driver [illegible] News.

When Shirley City, yclept Woodburn, the [illegible] of Maumee township, cannot furnish business for a justice court it is time to feel the pulse of that community to discover what is wrong. There was a right torrid time in the town last Friday night and the sequel was developed in Justice Tancey's court today.

A meeting was held in the Shirley City church and when the doxology had been sung with fervor by the congregation and the benediction pronounced by Rev. Mr. Singer, every body went outside, leaving the janitor to blow out the lights and lock up. Janitor Bernard Preston Harris was just making his exit from the sacred edifice with a lamp in his hand when he was accosted by one William Wallace, a man of bad repute, who informed the janitor in terms sulphurous that he had long cherished a desire to bleed him and proposed then and there to do it. Bernard Preston Harris held the kindly light while the belligerent Wallace pasted him o'er and o'er with knotted knuckles, badly cutting one eye and inflicting other injuries. While the battle was in progress Rev. Mr. Singer returned to the church and was about to interfere, when George Stapleton, ally of Wallace, seized him and with language exceedingly shocking to the ecclesiastical ear, forcibly thrust Rev. Mr. Singer from the vicinity. When Wallace had sufficiently pounded Mr. Harris, he repaired to the judicial mill of Justice William Driver and entered a plea of guilty to assault and battery and was fined $1 and costs, $5.75 in all. But this did not settle it for Bernard Preston Harris came to Fort Wayne and filed an affidavit against Wallace charging him with assault and battery with intent to murder against Stapleton with assault and battery. Sheriff Melching, Deputy Sheriff Lindermuth and Constable Roebke went to Woodburn this morning with warrants. They arrested Stapleton, but Wallace had fled to Antwerp, Ohio, whither Officer Lindermuth went in pursuit. Stapleton was brought to this city and arraigned in Justice Tancey's court. He gave bond in the sum of $100 for his appearance tomorrow morning.

Deputy Lindermuth telegraphed from Antwerp that he had Wallace under arrest and would bring him at once to Fort Wayne.

TWO LOADS OF CORN.

When Bernard Preston Harris was filing affidavits he did not stop with the two men who had a hand in assaulting him. He filed another that seriously involves the dignity, if it does not utterly threaten the stability, of the judiciary of Shirley City. Bernard Preston Harris charged that recently his honor Justice Driver was in an unbecoming and unmitigated state of public intoxication. A warrant was forthwith issued and was sent along with the others for service. It was found upon arriving in Shirley City that the bibulous Dogberry of Maumee was en route to Fort Wayne with a load of corn—not the load he carried the other day, but a load of golden grain in its virgin, unshelled and unfermented state. Notice was sent to this city and just as Judge Driver was driving over the Columbia street bridge he was met by Deputy Sheriff Stout who placed the Maumee court under arrest and hustled it incontinently before Justice Tancey, where the court acknowledged both the corn and the consequences thereof. He was fined $1 and costs, on which he took a stay of ninety days. In addition to mulcting the judge from Shirley, Justice Tancey administered a glowing homily on the dignity of courts, the purity of the judiciary, and the beauties of sobriety. Judge Driver then marketed his corn and went home.

OTHER NEWS OF THE COURTS.

Peter E. Pickard has qualified as administrator with the will annexed of the estate of the late Thomas P. McCulloch.

HUNG THEMSELVES.

And Hez Hughes Is Not Guilty of Murder.

Evidence Goes to Show That the Victims of the Versailles Outrage Were Their Own Executioners.

INDIANAPOLIS, March 1.—A special to the News from Hillsboro, Ind., says: Justice Crong, at Cross Plain, this morning rendered a verdict acquitting Hez Hughes, who was charged in an affidavit filed by Governor Mount with complicity in the Versailles lynching. Attorney General Ketcham is en route from Indianapolis. In an interview he stated that: "It is evident from all the evidence obtainable that the five men broke jail and hung themselves."

LOCAL LINES.

Miss Iva Maxwell, of East Wayne street, is very ill.

Merton Marston, city editor of the Laporte Herald, has started for the Klondike.

Contributions for the Cuban sufferers will be received today and tomorrow at the city Y. M. C. A. building from 8 a. m. to 10 p. m. Everybody should bring their little mite.

Wayne Tent, Knights of Maccabees, will take action upon some matters of great importance to the order at the next meeting, Thursday evening, and it is necessary that there be a good attendance.

Frank Hilgeman was tendered a reception last night by his brother lodgemen of the Knights of the Golden Eagle. It was a thoroughly enjoyable affair. Mr. Hilgeman was presented with a fine umbrella.

The entertainment given under the auspices of Mad Anthony Hive, No. 27, Ladies of the Maccabees, at Harmony hall last evening was largely attended and the audience was delighted with the work of Charles Guinness, "The Soldier Poet," and Miss Josephine Reiley, the Shakespearian reader. Both performers seemed in their element and there is no doubt that if they repeat their entertainment in the city they will have a large audience.

After a three months' sojourn in Fort Wayne Rev. Z. Nye leaves this evening at 7:45 for New York. Mr. Nye is engaged in special rescue work and has done a great deal of work in this city, both in the churches and out of them. In leaving, Mr. Nye asks THE SENTINEL to express his sincere thanks to the many persons he met here and by whom he says he was treated with such uniform kindness. From these persons he says he received many expressions of love and sympathy in the good work he is doing. Especially does he wish to remember the different churches and congregations which he was helping and the young men and members of the Railroad Y. M. C. A. He rejoices in the fact that he was permitted just before he left to hear the stillness of the City Y. M. C. A. building broken with the earnest prayers in a grand revival. He hopes the hearts and pockets of the citizens of Fort Wayne may be taught to open again this soul-giving station.

THE OIL FLOWS.

Paying Quantities in the Hartzell Well at New Haven.

It Is Equal in Quality to North Lima Oil.

Directors of the Company Elated at Prospects.

More Than One Thousand Feet of Oil Is Now in the Well--Will Drill Deeper and Put in Pumps.

There is hardly a doubt now that oil can be found in paying quantities in Allen county.

Last evening, about 5 o'clock, the drillers in the Hartzell well near New Haven struck oil in what is supposed to be paying quantities. At 8 o'clock the oil had risen in the well 500 feet and before noon today was up 1,000 feet.

The prospectors have been waiting for good weather ever since the gas in the well played out, firm in the belief that in the twenty-seven feet of sand there was a big supply of oil, and it seems their hopes are to be realized. The drillers have been at work only two days and at an additional depth of thirty-five or forty feet have struck oil in large quantities. They will continue to a depth of seventy-five or eighty feet and are confident that even should there be a flow of salt water it can be easily separated from the oil.

Many of the local directors went down to the well today and are highly elated at the prospects. The former shooting of the well has so imbedded debris in the bottom that it is hard drilling and the flow of oil is somewhat obstructed. A sample of the oil brought to this city indicates that it is equal to the North Lima oil, which is as good as any found in this section of the country.

So confident are the directors of the Hartzell company that they have decided to purchase pumps and large oil tanks and take them to the field as soon as they can be delivered. The well will then be shot and its capacity can be determined. Other wells will be drilled as soon as the present one is thoroughly tested.

SET FOR APRIL 5.

Date Selected for the Democratic City Convention.

The Primaries Will be Held April 4--The Delegate Representation Increased.

The meeting of the democratic city central committee in the city clerk's office last evening was largely attended, and all those in attendance expressed satisfaction at the outlook. Chairman Allen Hamilton presided, and H. W. Back was elected secretary to succeed Thomas McGee, resigned. Without much discussion the committee decided to hold the primaries Monday, April 4, and the convention the day following, bringing the democratic primaries on the same day as the republican city convention. A resolution was passed to the effect that all candidates must give in their names before March 28, or their names will not appear on the tickets. A committee, consisting of Messrs. A. I. Friend, W. F. Ranke and H. C. Berghoff, was appointed to secure a room for the committee meetings and also secure a hall for the convention. An important act of the committee was the adoption of a resolution to increase the basis of representation in the convention. On motion of Mr. Berghoff it was decided to make the representation one delegate for every sixty votes cast for Mayor Scherer two years ago, increasing the number of delegates in the convention from seventy to eighty. A number of candidates for counil attended the meeting. The committee will meet again next Monday evening.

DEATHS AND FUNERALS.

Last evening a telegram conveyed to Mrs. J. D. White, of 30 Lillie street, the sad intelligence of the death of her sister, Mrs. Josephine Pyle, of Wabash, Ind. The deceased had long been in poor health, but until yesterday was able to walk about the house and no one realized the seriousness of her condition until an hour or two before her demise. Mrs. Pyle was the wife of Frank Pyle, who has been engaged in the painting and paper hanging business in Wabash for several years. She frequently visited her sister in this city and had quite an extensive acquaintance here. The funeral will take place tomorrow afternoon at Wabash and will be attended by the relatives from Fort Wayne.

SCHERR.

Clara Catherine, nine-months-old child of Mr. and Mrs. A. J. Scherr, died this morning of spasms, at the home of the parents, on East Elizabeth street, near the feeble minded institute. The funeral will occur Thursday morning at 9 o'clock from St. Mary's Catholic church.

TAGTMEYER.

Mrs. Anna Tagtmeyer, wife of Frederick Tagtmeyer, who for years has been the night watchman at the Old National bank, died at their home at 602 South Calhoun street, yesterday at 1:30 o'clock. The deceased had long been a sufferer from cancer of the stomach and death resulted from this malady. Besides her husband she leaves five grown children. The funeral will occur Wednesday afternoon at 2 o'clock from the residence.

THE CHANGE MADE.

Messrs. Rurode and Krimmel Become the Owners

Of L. B. Root's Stock in the Dry Goods Store of Root & Co--Will Be Known as Rurode & Company.

Messrs. E. C. Rurode and Charles Krimmel have completed their negotiations with the administratrix of the estate of the late L. B. Root and purchased all Mr. Root's stock in the big dry goods store of Root & Co. The firm will hereafter be known as Rurode & Company, the company being Mr. Krimmel and several employes of the firm who have grown up in the store. It is not determined which of the employes will be stockholders, but Mr. Rurode will deal fairly with all who have been faithful and competent in their duties at the store. The articles of incorporation are being prepared by Attorney Samuel Morris and will not be filed for several days.

Messrs. Rurode and Krimmel are well known and experienced business men of Fort Wayne. For almost forty years has Mr. Rurode been connected with the Fort Wayne branch of Root & Co. He was one of the original stockholders when the store was established in 1858, and two or three years later became the manager, which position he has held ever since. He is a thorough dry goods man, understands the wants of his customers, always handles the best goods in the market and has ranked his establishment alongside the best in the country. The high standard attained in the past will be maintained by the new firm, which promises to reach the acme of perfection in its line

PETITION FOR BRICK.

Leith Street Residents Will Ask for a Pavement.

A Petition Being Circulated Among the Property Owners on That Thoroughfare.

It is certain that if the board of public works grants all the petitions for street pavements asked for this spring Fort Wayne will have as many paved streets as any city in the country. This morning a petition was prepared by the board of public works for circulation among the property owners on Leith street. A resident of the street called at the office and secured the petition, which he is confident will be signed by a big proportion of the resident property owners. The petition unlike most of those circulated recently, will ask for brick and not asphalt. It is proposed to pave from Hoagland avenue to Lafayette street. The board of works has petitions on file now for more streets than the city can afford to build, but this does not prevent property owners from filing others and allowing the board to make selections of such streets as it is believed most need the improvements.

A TOLERABLE criterion of the self-poise of the people may be found in the passiveness of Hon. Joseph Bombshell Foraker.

IN THE face of a real grave national crisis Hawaiian annexation is discovered not to be the peg upon which the destiny of the country must hang.

THE "spirit of '76," though decently quiet, is very much alive in this land. Should war come Spain will find our soil has been sown broadcast with dragon's teeth.

IF the naval court of inquiry succeeds in solving the mystery of the Maine's destruction it will establish itself as a capable body to investigate the greater mystery that involves the disappearance of Councilman Schuler's curfew ordinance.

THE Vanderbilts, the Belmonts, the Van Alens, the Havemeyers and other millionaire owners of palaces along the cliff at Newport, have had a war scare and are making arrangements to remove the immensely valuable furnishings and bric-a-brac from their houses to places of safety before a Spanish fleet comes that way and pounds the whole wealthy display into heaps of ruins. Let us hope these wild alarms are ill-timed and unfounded.

SO LONG as the government is bustling with every sort of preparation for war it must expect its assurances of peace to be discounted by the people. However, that is no reason why anybody should get excited and begin shooting Spaniards. Wait. If there must be a fight there will be plenty of time for it.

AS THE public mind is greatly centered on naval matters now, attention is called to the fact that it was eighty-five years ago. February 25, 1813, that the American cruiser, Hornet, under the brave Captain Lawrence, met and utterly destroyed the proud British brig Peacock. That gallant officer was killed in a subsequent naval engagement the following June. His dying words, "Don't give up the ship!" have become the motto of the navy.

BECAUSE Americans have not become a nation of total abstainers there are many persons inclined to believe that the temperance work of the last thirty or forty years has not accomplished much. Nevertheless figures can be produced to show that there has been a great decrease in the amount of drinking. In 1860 the annual yearly production of whisky was 2.86 gallons per capita, while today it is but .97 gallons. The temperance people should find much reason for encouragement in those figures and good cause to redouble efforts that have been so successful.

WHATEVER course is pursued by this government with respect to the destruction of the Maine will be based on the finding of the naval court of inquiry. Until that court has completed its investigations and made its report the people may as well keep cool and wait until there is certainty of war before stripping for a fight. The government is diligently getting ready for the worst that may happen and if the worst does happen fighters will then be needed, quite a few thousand of them. But this sanguinary zeal to go forth at once and convert Spaniards into stark and unlovely mortal remains when there are no Spaniards to be got at has all the absurdity of bombast. Keep cool. Don't get ready to do something until you know what's going to turn up. Hive your warlike energy in a storage battery where you can draw on it if need be. War will furnish plenty of national disturbance when war comes. Let us enjoy peace while peace lasts.

THE series of gospel meetings in the Y. M. C. A. building was inaugurated yesterday most auspiciously. The attendance at the noonday services and in the evening was large beyond expectation, the interest earnest and lively and the promise of fruitful results bright. The Ministerial association has decided to lend all aid in its power and this means that there will be a grand co-operation of Christian forces and influences. The ministers can unite in no more promising labor than in working together for the success of these meetings and there is no question that their most earnest efforts will be devoted to the meetings. There is a widespread belief that one of the results of the services will be to awaken an interest that shall culminate in the re-establishment of the City Y. M. C. A. and the restoration of the splendid building to the association and to the Christian purpose for which it was erected. Such a prospect as this should be sufficient to enlist the heartiest co-operation not only of the ministers, but of all Christian people. Let the meetings be given every aid to success.

EDWARD VERNEY, in an article on "The Inhabitants of Milk," states that if a drop of milk be mixed with gelatine and examined under a microscope some hours afterward it will be found that three different operations have taken place through the engineering skill of bacteria. In one part of the gelatine excavations have been made, in another little hillocks have been thrown up, and in a third liquid lakes have been formed. Through the careless methods employed in milking cows and the subsequent exposure of the fluid to contaminations it should never be used as a beverage except after heating at a temperature of 140 degrees Fahrenheit. Of the infectious influences to which milk is open Mr. Verney mentions among others the non-rejection of the first flow from the udder of the cow, the dust and dirt on the coat of the animal and the unclean hands of the milker. From a cow where absolute cleanliness was enforced the milk contained only 330 bacteria. The same volume, taken under the usual conditions from a mixed herd, showed 15,000 bacteria. Professor Fleischmann says that thorough sanitary precautions are almost totally ignored in the milking of cows.

Their reappointment is a just recognition of their ability and of the excellent work they have done and meets with the warmest approval throughout the state."

Mr. and Mrs. Robert Penman, who are sojourning in Mexico this winter, celebrated the second anniversary of their marriage in Cuernavaca, Mexico, on the 11th of February, at Hotel Eggers. The Two Republics says of the event: "The spacious parlors of the hotel were brightly illuminated, a fine orchestra furnished excellent music for dancing, a bountiful lunch was served in an adjoining room and the various liquid refreshments were abundant in quantity and of desirable quality. Solos were rendered by Mr. Penman and Mr. Fiog, with accompaniments on the guitar by Mr. Eggers and violin by Mr. Noyes. In addition to these attractions the dancing, social converse and numerous toasts and witty sayings combined to form a most delightful evening's entertainment."

On Thursday evening, March 3, at Harmony hall, there will be given an opportunity for every man or woman to test his or her motor powers. In fact it has been whispered that a large number of axes and saws have been ground and sharpened, and that a large number of hardware stores have been contemplating closing their doors because of an unprecedented dearth in hammers. The meaning of all these mysterious operations are not preparations for war with Spain—as some timid hearts have surmised, but simply a supper that will be given by the enterprising and good-looking gentlemen of Heidelberg Reformed church. There will be men cooks and men waiters—men with spotless aprons and men who will escort the feeble (?) visitors to their respective seats. Big men and little men, fat men and lean men. In fact the whole atmosphere will savor of men. The ladies are bent on viewing with each other in choosing the handsomest waiters and not a few of them will glance with pardonable contempt upon the weak (?) efforts of their opposite sex. But the gentlemen are determined to take revenge, and they will defy competition. Come and see them on Thursday evening. Bring all your formidable instruments along with you and attack the viands as you would the Spaniards.

The journeymen lathers of the city, at a meeting last night in Trades and Labor assembly hall, organized a union. The new union starts out with seventeen members. The organizing committee of the Trades and Labor council installed the new union. The following temporary officers were elected: President, Charles Ransbottom; vice president, Frank Crance; secretary, John J. Burg; treasurer, William Barnes; sergeant-at-arms, Peter Barnes. The next meeting will be held next Monday evening when formal application will be made for a charter from the American Federation of Labor. The union will also elect delegates to the Trades and Labor council at this meeting.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

BOARD OF WORKS.

Contract Awarded for Printing the Annual Reports.

Petition Filed for Asphalt Pavement on West Columbia Street--Other Business Transacted.

Yesterday the board of public works awarded the contract for printing the annual reports of the city departments to the Aldine Printing company. The price was 78 cents per page, for 500 volumes. The other bids received were: The Journal company, 84¾ cents per page; W. D. Page, 97 cents; J. M. Singmaster, 93 cents.

A petition, signed by nearly every owner of West Columbia street property, asking for an asphalt pavement, was received, and the engineer was instructed to prepare plans and specifications for the work. The street, from Calhoun street to Harrison, will be paved with asphalt block. It will be the first pavement of the kind in the city. A crossing at Barr and Berry streets was paved with block asphalt five years ago, and the wear has been scarcely noticeable. There is talk of having Calhoun street paved with this material, but it is said that the majority are in favor of sheet asphalt.

C. K. Fairfield and others petitioned for a street lamp at the corner of Fox avenue and Ferguson street. The request was filed.

Aaron Lischy and others offered a remonstrance against the proposed building of a sewer in the alley west of Franklin avenue, from Spring street to Archer avenue.

Pozzoni's Complexion Powder gives fresher charms to the old, restored youth. Try it.

To Grocers.

We have direct proof that peddlers of washing-powders say that the stuff they're selling is "made in the same factory" as Pearline—*and that buying from them will save going to, or ordering from, the grocery store.* Do you want people "saved" that. You have these same washing-powders in stock. Possibly you are giving them out, whenever you can, in place of Pearline. You are trying to push them into notice; they are trying to crowd you out. You think you are "making more money on them." But will it pay you, in the end? 565

Send it Back Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—*send it back.* JAMES PYLE, New York.

SETTLES NERVOUS BANKRUPTCY

Statistics show that ninety five per cent. of all persons engaged in business in the United States fail. Investigation shows that men who succeed are men of brains, strong nerves, great will-power. Ordinary food and drink cannot supply the vital force which people with active brains and body require. **Bicola Pills** feed the nerves, make the mind bright, muscles strong, MAKE FLESH AND BLOOD and new energy, and give perfect manhood with all that perfect physicial condition means. **Bicola Pills** are a great tonic FOR WOMEN—they give health and strength to the special organs and nerve centers. THE TURNERS OF PHILADELPHIA make **Bicola Pills.**

J. E. Buckey, Chief Clerk National Hotel, Washington D. C., testifies as follows: "I was all run down, had no appetite, troubled with sleeplessness, pains in the head, was a shadow of my former self. Your Bicola Pills have given me most wonderful relief. I have gained over twenty pounds, have a good appetite, sleep well and am my old self once more."

—Jones—Well, I declare, Smith! are you such a coward, that you have to put the harness on that horse with a pitchfork?

2—Let me show you. You want to walk right up to him bold as a lion and let him know you're not afraid of him.

3—There! Now do you see how easy its done?

4—Smith—Yes; very nicely done. Thanks.

A WESTERN FIRM'S ENTERPRISE.

[Rochester Democrat and Chronicle, Thursday, February 24, 1898.]

"It is learned that the entire stock of piece goods owned by the Rochester Tailoring Co., tailors to the trade, which is discontinuing business, was bought last week by I. & A. Friedlich, proprietors of two large clothing houses in the west, the 'Sam, Pete & Max,' store of Fort Wayne, Ind., and the 'Utica,' of Des Moines, Iowa. The stock consists of between 7,000 and 8,000 yards of fine woolens, of a much better quality than is generally used in ready made clothing, and was purchased at a very low figure. The buyers are now having the goods manufactured here under their personal supervision, thereby saving the profit of manufacture, and will be able to create something of a sensation in the cities named, as the circumstances of the purchase and manufacture will place them in a position to offer remarkable inducements."

The above announcement explains itself. All heavy Suits and Overcoats bought from the ROCHESTER TAILORING CO., which were finished, HAVE arrived, and

ARE NOW ON SALE AT OUR STORE.

All are high grade merchandise, made up in strictly first-class style, and which we now offer at prices which defy competition.

The circumstances of this large purchase enables us to offer unparalleled values in high grade MEN'S and BOYS' SUITS and OVERCOATS.

It took a lot of nerve to plank down such a large amount of money, as this purchase had to be paid for with spot cash. But having the interests of our patrons at heart, we had to take hold. Don't miss the opportunity. The values are stupendous.

STRUCK BY A TRAIN.

Robert S. Castle the Victim of an Accident.

Accidents, Incidents and Items of Personal Nature That are Gathered About the Depots and Shops.

Robert S. Castle lies in a precarious condition at Hope hospital. He received his injuries this morning while engaged in attending the switch lights at Glasgow avenue for the Nickel Plate. A passing freight train struck Castle and hurled him under a car which was standing upon the siding, his head striking the railway iron with such violence that it rendered him unconscious. He was picked up by the trainmen and carried into the Summit City Soap factory, where Dr. J. M. Dinnen examined his injuries and ordered him taken to the hospital. Besides the wound on the forehead, sustained by striking the rail, Castle is badly injured about the back and side, and his chances for recovery are not considered very good. The unfortunate man resides on Dwenger avenue and is employed as a teamster by the city. He attends the switch lights for the railway company in the early morning and at night.

PERSONAL AND OTHERWISE.

Brakeman J. Johnson, of the Pittsburg, is sick.

Five Klondikers left this city, over the Pittsburg, this morning.

Charles Muhlenbruck, of the Pittsburg Machine shop, is sick and off duty.

H. Mennewisch, of the Bass blacksmith shop, is very sick with rheumatism.

Road Foreman A. H. Polhamus is on duty again after a severe illness of over a week.

Fred Lenz, a springmaker in the Pittsburg blacksmith shop, is kept from his work by sickness.

Pittsburg engine 44 was turned out of the shops today and engine 23 was taken in for repairs.

William Bloomhuff, of the polishing department of the electric works, is sick and off duty.

Two of the children of Machinist Louis Altevogt, of the Bass shops, are down sick with the measles.

G. M. Johnson, a fine cutter in the Pittsburg shops, is today attending to some private business in Hunton.

Machinist John Sinclair, of the Pittsburg shops, is attending a funeral of a relative in Van Wert today.

Nickel Plate Engineer Frank Telley and Fireman D. Vreeland are taking a brief rest from their labors.

The electric works, which had been closed for inventory for several days, resumed operations this morning.

Nickel Plate Brakemen S. Stevenson and J. C. Heslen are taking a few days' lay off to look after some personal affairs.

There were two sections of Nickel Plate train No. 3 yesterday, the second train having a baggage car and seven coaches.

Sickness keeps Louis Gronau, of the Pittsburg planing mills from his work. Lee Ballard, a painter in the same shop, is also sick.

Contractor James M. Henry is erecting a house on West Jefferson street, which he will occupy with his family when it is completed.

A railroad in Texas has been granted special rates by the state railroad commission in order to meet the competition of the wagon roads.

G. R. Layher, who has been with the Wabash lines some years, has been appointed freight agent of the company at Buffalo, its new eastern terminal.

R. M. Biggs, of New York, is here measuring the Pennsylvania trainmen for their summer uniforms. He visits the city twice each year.

The bolt header in the Pittsburg blacksmith shop operated by Charles Barnes, is in operation again after an idleness of several days on account of repairs.

C. H. Newton, Wabash freight agent, has been very busy for several days preparing for the new way freight rates made necessary by the acquirement of the Buffalo division.

General Superintendent A. W. Johnston, of the Nickel Plate, was in the city over night, coming in on No. 5, in his private car, and leaving for Chicago by special train this morning.

Assistant General Foreman C. W. Hall, of the Pennsylvania shops at Wellsville, Ohio, was in the city yesterday packing up his personal effects and shipping them to his new home. He is pretty well pleased with his present position, but says that Wellsville, while a good place, does not come up to Fort Wayne in his estimation.

Nickel Plate engine 8 went to the Stony Island shops yesterday for general repairs. Engine 212 was turned out of that shop yesterday and sent to Conneaut to go into yard service.

This morning John J. Mossman assumed the office of division freight agent of the Wabash, with headquarters at St. Thomas, Ont. He will have charge of the entire Buffalo division of the line.

William Zuttermeister, of 18 McClellan street, returned home this morning, after a pleasant visit with friends and relatives in Richmond, Ind. He resumed his place in the electric works this morning.

Superintendent G. L. Potter returned from the east last night. He says there will be no new engines built in the Fort Wayne shops this year. There appears to be plenty of repair work to keep the men busy, however.

John Slater, the veteran blacksmith at the Pittsburg shops, is not recovering from his illness as fast as his friends would like. He is able to walk about, but is very weak and will probably not be able to work for several weeks.

The Crouch Construction company on Saturday moved its large steam shovel from Benton Harbor to Anderson, where a considerable amount of excavation is to be done in making contemplated improvements by the Big Four.

The railroad commissioners of North Carolina have ordered passengers fares, after March 23, reduced to 2¼ cents per mile, first-class, and to 2 cents per mile, second-class. The roads will apply to the United States court for an injunction.

Mr. and Mrs. Ben McFerran, of 343 West Jefferson street, returned from Birmingham, Ala., this morning. They were the guest of relatives in that city about two weeks. Mr. McFerran is again at his desk in the Pittsburg store room department.

If the anti-scalping bill now before congress becomes a law, the eastern lines out of Chicago will establish a joint agency at a saving to the roads, it is stated, of at least $200,000 a year in office rent and clerical hire, and a number of men will be out of employment.

Horace Seely has resigned the office of commercial agent of the Wabash at Des Moines, Iowa, and the duties of Assistant General Freight Agent J. D. Lund have been extended to cover those formerly performed by Mr. Seely. Mr. Lund's headquarters are at Kansas City.

Christian Schlie, of Savilla street, and his family are preparing to move to Danville, Ill., where they will reside in the future. Mr. Schlie attends to the work of cleaning dining cars for the Wabash company, but as there are no cars of that character running on this end of the line, it was found necessary to transfer him to other quarters.

The Baltimore and Ohio Southwestern has changed its dining car system from table d'hote to la carte, with the result of increased profits, better service and greater satisfaction on the part of the patrons. The cars are open for business during the entire time they are on the train and the innovation seems to have met with the approval of the passengers.

KIHM IS HERE.

"Dummy" Arrived in Fort Wayne Last Evening.

Springfield Is Having Its Troubles at the Present Time—The President of the Club Resigns.

George F. Kihm, "Dummy," arrived in the city yesterday afternoon looking in better condition than at any time in the past two years. He has been training for his sparring match with Andy Yates and is hard as a rock. Not only does he promise to make a fine showing at the athletic exhibition next Friday night for the benefit of the base ball club, but he says he will "play the game of his life" and he looks as if he would. "Dummy" has nothing but friends in Fort Wayne and they were all glad to shake him by the hand.

SPRINGFIELD HAS TROUBLES, TOO.

Springfield Sun: "The Springfield Baseball association is once again confronted with a serious problem upon the solution of which depends, in great measure, the future of the club. President J. W. Garnier has resigned, and John Coleman stated last evening that it was his intention to resign as a director of the association.

"The problem is not one of finances, for the actual condition of the association now in this particular is as good or better than it was last year. The present board of directors, whatever may be said of their shortcomings in some respects, have not neglected the finances, but instead have exerted every effort to replenish a depleted treasury with a fair degree of success. The question which now menaces the club is a question of management, and the association, standing as it now does without a president, and, it seems, without a competent and available man for that position, faces an uncertain future.

"Ex-President S. L. Nelson, of the association, suggests a plan, which commends itself very favorably to the situation:

"'I am heartily in favor of turning this franchise over to Manager Whistler,' said Mr. Nelson, 'and I believe that if he had absolute control of it he would make it go. I am in favor of calling a meeting of the stockholders, going down in our pockets for enough money to pay off the old debt, buy the new uniforms and put up the $500 guarantee and then say to Manager Whistler: 'Here is the franchise and the equipment. Try it in Springfield and if the people show by their lack of patronage that they do not want a ball team, go where they do want you.'

"'I have been accused of wanting to get control of the club, but I will assure you that I am positively out of it and $4,000 in cool cash would not tempt me to undergo the ordeal of last years' experience.

"'I would be perfectly willing to stand much more than my proportionate share of the assessment necessary to carry out this plak, and am fully convinced that it offers the best way out of the present dilemma.'"

GANZEL A STAR.

Steve Griffin, who played with John Ganzel in Grand Rapids last year, writes: "Pittsburg has the star first baseman of the league in Ganzel. I used to shut my eyes and throw from short to him and he would root 'em up. He will lead the big league the same as he has done in the Inter-State and Western leagues."

$10 in cash given away each week at Reuben S. Patterson's.

The DePauw Glee club will appear at Westminster church in the near future. Negotiations in that direction have nearly been completed, the only matter not yet decided being the date of the entertainment.

Much interest is manifested in the gospel meetings now being held in the City Y. M. C. A. building. There was again a large attendance at the noon-day prayer meeting and many manifestations of spiritual interest which is bound to bring forth good fruits from the meetings. Last night the attendance was larger than anticipated. Addresses were made by Revs. Frame, Zartman and Cooper. Tonight the principal talk of the evening will be by Rev. Frame.

RED ROUGH HANDS

NO OFFICIAL NEWS.

The Naval Department Has Nothing to Say.

Will Have No Information to Report for a Few Days.

Are Awaiting the Report of the Court of Inquiry.

Spain Greatly Worried Over the Situation—Actively Seeking for More War Vessels.

WASHINGTON, March 1.—Two weeks ago tonight the battleship Maine was destroyed in Havana harbor, and in spite of the greatest diligence on the part of the officers charged with an inquiry into the affair, the cause of the disaster is still shrouded in mystery, so far as any officials in Washington know. Few officials acquainted with the formidable obstacles in the way of the operations of the divers are surprised at this state of affairs and it is beginning to be generally realized that upon the testimony of the divers almost altogether will depend the success of the inquiry.

Meanwhile the officials of the navy department have reached the conclusion that harm is being done by the broaching of theories to account for the explosion, so notice has been served upon the experts who have been heard from in the press that it is preferred they shall not longer discuss this matter in advance of the report of the court of inquiry. One reason for this action was the fact that the department was finding itself committed involuntarily to the support of the theory that the explosion was of internal origin, while, as a matter of fact, both Secretary Long and Assistant Secretary Roosevelt have been at great pains to show that the department stood entirely neutral as between the theorists and were prepared to accept only the conclusions of the court of inquiry as binding upon it. In consequence of this decision there is less disposition manifested among the naval officers to talk about the Maine affair in any phase.

An indication that the court of inquiry is either far from having reached any conclusion or else is disposed with a view to meeting future criticisms to collect all possible evidence, whether it be deemed essential or not, hence the call to their assistance of experts. It has already been a matter of comment that with all the ability comprised in this court of inquiry it has one weak spot, namely the lack of practical experience of the construction of a ship in its members. This is no part of the duty of a line officer, so that no reflection is carried by the statement. To remedy their shortcomings the court has called upon the department to send to their aid a constructor and a carpenter, and in compliance with the request Secretary Long has directed Naval Constructor Hoover and Carpenter Helm to report to the court at Key West. It is expected that they will go to Havana when the court returns there and from their familiarity with the structure of the Maine, on which both of these men worked when she was built in the New York navy yard, they will be of great assistance, not only in suggesting easy methods of work for the divers, but also in identifying portions of the wreck. The latter consideration is one of the greatest importance, in view of the statements that have come from Havana to the effect that some of the ship bottom plates have been found in the debris above water. It is said at the department that if this is true, the fact will be of importance. But, it is added, it would not be necessarily conclusive evidence as to the source of the explosion, for it is conceivable that as the vessel was blown up it might easily have pulled up with it some of the frames and bottom plating which are rigidly attached by rivets. Without doubt the two experts will be much better qualified than the line officers or divers to identify any such piece of plate.

No orders have gone out from the department to the vessels of the squadron today, and the officials stamp as without foundation the report that the squadron was yesterday ordered to be held in readiness to sail for Havana. Likewise it is said that no selection has yet been made of the cruiser to proceed to Havana, but it is likely, in case the court of inquiry should desire to make the return trip to Havana in a cruiser, that Admiral Sicard would be allowed to make his own selection from among the vessels of his fleet.

No advices have been received at either the state or navy department that would warrant the statement that the Spanish officials in Havana have attempted to interpose any obstacles to the prosecution of the work of the wreckers on the Maine's hull. It is said that the very last phase of this matter was sent out in the published dispatch of Assistant Secretary Day authorizing the Spanish government to prosecute an independent investigation by its own divers into the cause of the Maine. The department has not withdrawn that permission.

WHAT GOMEZ WILL DO.

Will Attack Havana by Land When White Squadron Opens Fire.

NEW YORK, March 1.—"On the day that the white squadron opens fire on Havana Maximo Gomez will begin an attack by land. He will keep on fighting until Havana surrenders or nothing is left of it but a heap of ruins."

These words were used in Tampa, Fla., to a World correspondent by Emilo Nunez, of New York, who commanded the filibustering expedition which has been landed in Cuba from the steamer Dauntless. Capt. "Dynamite" Jack O'Brien has returned to Tampa with Colonel Nunez. They left for New York last night.

"I am just back from Cuba," Col. Nunez said: "Cuba, which is now almost free. Our little steamer carried two allotments of arms and ammunition. We made one landing at Oriente, where we left a large quantity of rifles and dynamite for Calixto Garcia's command. Then we put about and steamed along the entire length of the Cuban coast to Pinar del Rio province, where we placed the remainder of our cargo in the hands of General Diaz, who commands our forces in that part of the island. Trouble with Spaniards? Of course; but Spaniards are not clever enough to stop an expedition if they tried, and it never seemed to me they tried very hard.

"At Key West I had a long talk with Dr. Guiteras, who is the surgeon attending the wounded sailors of the Maine. He told me that one poor fellow asked him the meaning of the Spanish words 'Mata-lo.' The doctor told him that it meant in English 'kill him.' The sailor shuddered. 'I jumped overboard when the explosion took place' he said, 'and swam to a fishing boat. A man in it knocked me off with an oar and said 'Mata-lo, Yankee.'' That shows you the way Spaniards love Americans. Every one in Cuba knew of the Maine disaster twenty-four hours after it occurred. Our underground railroad is almost as quick as the telegraph.

"Garcia is now besieging Bayamo and General Pando, with 25,000 men, is trying to force his way up the Cantos river to dislodge him. In the open country, between Marcia and Havana, Gomez is slowly but surely working toward the capital burning as he goes. As Blanco recalls his troops to protect Havana Gomez draws nearer from the east and Rodrigeux and Diaz from the west. They all expect that the United States will declare war. The moment that happens they will mass their forces and co-operate with the United States fleet, Havana will fall and Cuba will be free."

HENRI ROCHEFORT WRITES.

NEW YORK, March 1.—A dispatch to the Herald from Paris says:

In the Intransigeant Henri Rochefort writes: "To really grasp the situation the explosion on the Maine must be regarded as the first battle between Spain and the United States. As for us, we only see in it the last stage of the advance of the Cubans toward independence. The catastrophe has caused the death of 254 unfortunate sailors, but it has also saved the lives of millions of combatants, for it ensures the final triumph of the insurrection before many weeks."

ALL SPANIARDS NOT FOR SPAIN.

SANTA FE, N. M., March 1.—"If the Maine disaster should be shown by the court of inquiry to be due to Spanish treachery," said Governor Otero, "the transfer of all Spain's West Indian possessions to the United States would not, in my judgement, be sufficient atonement for the outrage, and our government would be justified in deferring all negotiations for indemnity until merited chastisement had been inflicted. Cuba's freedom is not necessarily involved in this affair of ours. In case of war, New Mexico's Spanish speaking soldiery will be found at the front with the United States troops."

WILL REDUCE TARIFF.

Spain Opens Her Ports to American Grain.

MADRID, March 1.—The premier, Senor Sagasta, is quoted in an interview as saying that he expects very satisfactory news from Cuba before April. In the course of the same interview Senor Sagasta says: "In view of the increase in the price of grain in Spain the government has decided to reduce the import dues." A decree on this subject is momentarily expected. A meeting of the cabinet has been arranged for tomorrow. It is believed this step will be taken owing to the receipt of more reassuring news from the United States.

NEWS SUPPRESSED.

CONSTANTINOPLE, March 1.—The press censor suppressed the news of the attempt made on Saturday last to assassinate the king of Greece. The newspapers were prohibited from even mentioning the thanksgiving services, in commemoration of his majesty's escape from death, celebrated at the Greek legation.

CABINET TALK.

The Maine Disaster Comes in for a Share.

Several Theories Discussed and Laid Aside.

No News of Importance From Havana.

The Lake City Outrage, Wherein a Postmaster Was Murdered, Receives Official Notice.

WASHINGTON, March 1.—The meeting of the cabinet today, at which all the members were present, disclosed the fact that the government is still without news regarding the cause of the disaster to the Maine.

Up to this time the court of inquiry has not indicated in any way the trend of the investigation. The president and the members of the cabinet are as completely in the dark as to the evidence so far adduced disclosed as they were on the day after the explosion.

At today's meeting the cabinet discussed a number of the theories which have been advanced as to the cause of the explosion, but nothing approaching a definite conclusion was reached.

Another matter which engaged the attention of the cabinet was the brutal murder recently of the colored postmaster and his infant child at Lake City, S. C., by a mob of a hundred or so white men.

Following the cabinet meeting today, a report was circulated to the effect that Secretary Long had stated that the element of Spanish responsibility had been eliminated from the incident of the disaster to the Maine.

WILL GO TO CUBA.

Senators and Congressmen Will Visit the Island.

WASHINGTON, March 1.—A party of senators and members of the house will leave Washington at 4 o'clock today for a trip to Cuba. They go by train to Fortress Monroe and from there will take a private yacht for Havana. The party will consist of Senators Gallinger, Thurston and Money, and Representatives Amos J. Cummings and William Alden Smith and their wives. Senator Thurston said today that the trip was undertaken for the purpose of making a personal investigation into affairs in Cuba. "It is not," he said, "in an sense an official tour, but it will naturally give us a better opportunity for investigation than we can possibly have from this distance." He said the party would be absent about ten days, which would allow several days in Cuba. Senator Gallinger said in reply to a question that he had not exchanged a word with the president about the trip and that it was purely a private undertaking for the purpose of making a personal inspection.

HUNTING WAR SHIPS.

Spain Looking Around for More Vessels.

MADRID, March 1.—Greater anxiety is visible here, in regard to the verdict of the United States naval court of inquiry into the loss of the battleship Maine, than was apparent a week ago. The constant rumors of possible hostilities are harrassing and weakening the government and they are also trying the patience of the public. The "jingo papers" publish exhaustive dispatches from New York and Washington to the effect that the relations between the United States and Spain are hourly becoming more strained, and attributing to President McKinley a series of anti-Spanish declarations. Admiral Bermejo, the minister of marine, is actively seeking the best means to procure additional warships.

THE VIZCAYA

Will Be Royally Received in the Harbor at Havana.

HAVANA, March 1.—There is a strong breeze blowing today and active preparations continue for the public welcome to be accorded to the Spanish cruiser Vizcaya which, the Spaniards hope, will arrive here today from New York. Senator Proctor, after his visit to Captain General Blanco today, will make arrangements to take a trip to the provinces, probably first going west to Pinar del Rio. He will accompany Mr. Elwell, Miss Clara Barton's business manager. The steamer Montevideo left Havana for Barcelona last evening with about five hundred soldiers on board, some invalided and others whose time of service had expired. There is no word from the divers, thus far today, of any work of importance.

PESSIMISTIC.

Paris Newspaper Takes Dark Views of America's Future.

PARIS, March 1.—The French newspapers generally do full justice to the attitude of the United States in view of the loss of the battleship Maine, although they contend that the "jingo newspapers have dangerous influence."

The Temps is inclined to be pessimistic. It refers to the warlike spirit of the Americans and the pride of the Spaniards, "who, if an indemnity were demanded in case the disaster proves to be the result of a crime, might refuse point blank, haughtily indignant at the thought that any one could suppose them guilty," and continues: "Cuba is a royal morsel which tempts a people intoxicated by their strength and convinced that Monroeism is the alpha and omega of international law. But, it is still to be hoped, that the conservative forces are so powerful that they will at the last moment stop the people and the government on the threshold of an adventure which would be not only big with the gravest consequences from an international point of view, but which might induce at home a sort of revolution, and the development of the most dreadful phase of Caesarism, that evil which gnaws the vitals of every democracy."

EIGHT-HOUR LAW.

Utah Measure Wins a Victory in the Supreme Court.

Highest Tribunal in the Land Passes Upon Labor Legislation and Says It Is All Right.

WASHINGTON, D. C., March 1.—In the supreme court an opinion has been handed down in the case of E. F. Holden against the sheriff of Salt Lake county, Utah, involving the constitutionality of the territorial law fixing a day's work in smelters and mines in the territory at eight hours. Holden was arrested for violating the law and sentenced to imprisonment for the offense. He brought the case to the supreme court in an effort to secure a writ of error on the ground that the law was unconstitutional in that it was calculated to deprive a citizen of life or liberty without due process of law. The court held that such was not the case, but that the law was an exercise of the state's police powers.

Justice Brown said in passing upon the case that it was not the intention of the court to pass generally upon the constitutionality of eight-hour laws, but that in so far as state laws were exerted for the protection of the lives, the health or the morals of a community there could be no doubt of their propriety or of their constitutionality. There could be no doubt of the exceptional and unhealthful character of work in smelters or mines because of bad air, high temperature and noxious gases, and hence the wisdom of the state legislation. The decision of the supreme court of Utah was affirmed in yesterday's opinion.

PAID TOO MUCH.

Trial of Mayor Good, of Springfield, Ohio, Under the Garfield Law.

SPRINGFIELD, Ohio, March 1.—In the circuit court yesterday afternoon began the hearing in the case against Mayor John M. Good, brought in quo warranto by Attorney-General Monett under the Garfield law for excessive election expenses. The law allows $139. Good's returns to county clerks show expenses on nomination $5, election $15. John Kinnane, treasurer of the democratic central committee, testified that they collected $374 and paid out $245 to his knowledge; the remainder disappeared and he did not know what became of it. Good said to him that he would not go through it again for $5,000. He thought Good's election cost him over $1,200.

A ROYAL DIVORCE.

Prince Phillip, of Saxe-Coburg Gotha, Wants a Separation.

VIENNA, March 1.—Prince Phillip, of Saxe-Coburg Gotha, has taken the preliminary steps to obtain a divorce from his wife, the Princess Louise, of Belgium, oldest daughter of King Leopold. The case will be heard after the marriage of their daughter, who is affianced to the younger brother of the empress. Prince Phillip fought a duel on February 18 with Lieutenant Mattachich-Kelovitch under stringent conditions, first with pistols and then with swords. The prince was severely wounded in the right arm. The cause of the duel dates from a year back, when the love affairs of the Princess Louise, who eloped with the lieutenant, were the talk of Vienna.

BIG GOLD EXPORTS.

London Financiers May Appeal to Bank of France for Aid.

LONDON, March 1.—The money market continues to be very tight and there is little prospect of early relief. The commercial demand for gold to the United States continues to be very pressing and according to reports is causing exporters to sound the governors of the Bank of France as to whether they will allow some of that bank's gold to be withdrawn for export to New York.

THOMAS R. MARSHALL

Brings Suit to Test the Township Trustee Law.

INDIANAPOLIS, Ind., March 1.—By direction of the democratic state committee, Thomas R. Marshall, the member from the Twelfth district, has begun an action in court at Columbia City to have the law extending the terms of township trustees declared unconstitutional.

Jamestown's Mayor Assigns.

JAMESTOWN, N. Y., March 1.—Mayor Oscar F. Price has made a general assignment for the benefit of his creditors. An overload of real estate was the cause.

GAY SHIRLEY CITY.

A Lively Time in the Maumee Metropolis.

Fight Marks the Close of Church Services.

Bernard P. Harris Mauled by William Wallace.

Latter Charged With Deadly Assault—George Stapleton Arrested—Justice Driver Fined—Court News.

When Shirley City, yclept Woodburn, the treful metropolis of Maumee township, cannot furnish business for a justice court it is time to feel the pulse of that community to discover what is wrong. There was a right torrid time in the town last Friday night and the sequel was developed in Justice Tancey's court today.

A meeting was held in the Shirley City church and when the doxology had been sung with fervor by the congregation and the benediction pronounced by Rev. Mr. Singer, every body went outside, leaving the janitor to blow out the lights and lock up. Janitor Bernard Preston Harris was just making his exit from the sacred edifice with a lamp in his hand when he was accosted by one William Wallace, a man of bad repute, who informed the janitor in terms sulphurous that he had long cherished a desire to blend him and proposed then and there to do it. Bernard Preston Harris held the kindly light while the belligerent Wallace pasted him o'er and o'er with knotted knuckles, badly cutting one eye and inflicting other injuries. While the battle was in progress Rev. Mr. Singer returned to the church and was about to interfere, when George Stapleton, ally of Wallace, seized him and with language exceedingly shocking to the ecclesiastical ear, forcibly thrust Rev. Mr. Singer from the vicinity. When Wallace had sufficiently pounded Mr. Harris, he repaired to the judicial mill of Justice William Driver and entered a plea of guilty to assault and battery and was fined $1 and costs, $5.75 in all. But this did not settle it for Bernard Preston Harris came to Fort Wayne and filed an affidavit against Wallace charging him with assault and battery with intent to murder against Stapleton with assault and battery. Sheriff Melching, Deputy Sheriff Lindermuth and Constable Roebke went to Woodburn this morning with warrants. They arrested Stapleton, but Wallace had fled to Antwerp, Ohio, whither Officer Lindermuth went in pursuit. Stapleton was brought to this city and arraigned in Justice Tancey's court. He gave bond in the sum of $100 for his appearance tomorrow morning.

Deputy Lindermuth telegraphed from Antwerp that he had Wallace under arrest and would bring him at once to Fort Wayne.

TWO LOADS OF CORN.

When Bernard Preston Harris was filing affidavits he did not stop with the two men who had a hand in assaulting him. He filed another that seriously involves the dignity, if it does not utterly threaten the stability, of the judiciary of Shirley City. Bernard Preston Harris charged that recently his honor Justice Driver was in an unbecoming and unmitigated state of public intoxication. A warrant was forthwith issued and was sent along with the others for service. It was found upon arriving in Shirley City that the bibulous Dogberry of Maumee was en route to Fort Wayne with a load of corn—not the load he carried the other day, but a load of golden grain in its virgin, unshelled and unfermented state. Notice was sent to this city and just as Judge Driver was driving over the Columbia street bridge he was met by Deputy Sheriff Stout who placed the Maumee court under arrest and hustled it incontinently before Justice Tancey, where the court acknowledged both the corn and the consequences thereof. He was fined $1 and costs, on which he took a stay of ninety days. In addition to mulcting the judge from Shirley, Justice Tancey administered a glowing homily on the dignity of courts, the purity of the judiciary, and the beauties of sobriety. Judge Driver then marketed his corn and went home.

OTHER NEWS OF THE COURTS.

Peter E. Pickard has qualified as administrator with the will annexed of the estate of the late Thomas P. McCullough.

A petition has been filed asking that Fritz Gilbert, of St. Joe township, be declared of unsound mind.

In the superior court Wm. Moellering was given a judgment for $503 again Joseph Derheimer et al.

The hearing of the matters pertaining to the Abbott estate has been concluded in the circuit court and there will be a special finding of facts upon which conclusions of law will rest.

Benjamin Saunders has been appointed guardian for Ella G. McCullough, a minor.

The circuit court is engaged in hearing matters in relation to the Consolidated Street Railway company.

The late Andrew Shorb, of Whitley county, left an estate in excess of $75,000, with ten heirs, some of whom had already received advances. These heirs have appointed a board of arbitration and have given bond in the sum of $1,000 each to abide by the appointment. The object is to avoid litigation and court costs.

HUNG THEMSELVES.

And Hez Hughes Is Not Guilty of Murder.

Evidence Goes to Show That the Victims of the Versailles Outrage Were Their Own Executioners.

INDIANAPOLIS, March 1.—A special to the News from Hillsboro, Ind., says: Justice Craig, at Cross Plains, this morning rendered a verdict acquitting Hez Hughes, who was charged in an affidavit filed by Governor Mount with complicity in the Versailles lynching. Attorney General Ketcham is en route from Indianapolis. In an interview he stated that: "It is evident from all the evidence obtainable that the five men broke jail and hung themselves."

LOCAL LINES.

Miss Iva Maxwell, of East Wayne street, is very ill.

Merton Marston, city editor of the Laporte Herald, has started for the Klondike.

Contributions for the Cuban sufferers will be received today and tomorrow at the city Y. M. C. A. building from 8 a. m. to 10 p. m. Everybody should bring their little mite

Wayne Tent, Knights of Maccabees, will take action upon some matters of great importance to the order at the next meeting, Thursday evening, and it is necessary that there be a good attendance.

Frank Hilgeman was tendered a reception last night by his brother lodgemen of the Knights of the Golden Eagle. It was a thoroughly enjoyable affair. Mr. Hilgeman was presented with a fine umbrella.

The entertainment given under the auspices of Mad Anthony Hive, No 27, Ladies of the Maccabees, at Harmony hall last evening was largely attended and the audience was delighted with the work of Charles Guinness, "The Soldier Poet," and Miss Josephine Reiley, the Shakespearian reader. Both performers seemed in their element and there is no doubt that if they repeat their entertainment in the city they will have a large audience.

After a three months' sojourn in Fort Wayne Rev. Z. Nye leaves this evening at 7:15 for New York. Mr. Nye is engaged in special rescue work and has done a great deal of work in this city, both in the churches and out of them. In leaving, Mr. Nye asks THE SENTINEL to express his sincere thanks to the many persons he met here and by whom he says he was treated with such uniform kindness. From these persons he says he received many expressions of love and sympathy in the good work he is doing. Especially does he wish to remember the different churches and congregations which he was helping and the young men and members of the Railroad Y. M. C. A. He rejoices in the fact that he was permitted just before he left to hear the stillness of the City Y. M. C. A. building broken with the earnest prayers in a grand revival. He hopes the hearts and pockets of the citizens of Fort Wayne may be taught to open again this soul-giving station.

THE OIL FLOWS.

Paying Quantities in the Hartzell Well at New Haven.

It Is Equal in Quality to North Lima Oil.

Directors of the Company Elated at Prospects.

More Than One Thousand Feet of Oil Is Now in the Well—Will Drill Deeper and Put in Pumps.

There is hardly a doubt now that oil can be found in paying quantities in Allen county.

Last evening, about 5 o'clock, the drillers in the Hartzell well near New Haven struck oil in what is supposed to be paying quantities. At 8 o'clock the oil had risen in the well 500 feet and before noon today was up 1,000 feet.

The prospectors have been waiting for good weather ever since the gas in the well played out, firm in the belief that in the twenty-seven feet of sand there was a big supply of oil, and it seems their hopes are to be realized. The drillers have been at work only two days and at an additional depth of thirty-five or forty feet have struck oil in large quantities. They will continue to a depth of seventy-five or eighty feet and are confident that even should there be a flow of salt water it can be easily separated from the oil.

Many of the local directors went down to the well today and are highly elated at the prospects. The former shooting of the well has so imbedded debris in the bottom that it is hard drilling and the flow of oil is somewhat obstructed. A sample of the oil brought to this city indicates that it is equal to the North Lima oil, which is as good as any found in this section of the country.

So confident are the directors of the Hartzell company that they have decided to purchase pumps and large oil tanks and take them to the field as soon as they can be delivered. The well will then be shot and its capacity can be determined. Other wells will be drilled as soon as the present one is thoroughly tested.

SET FOR APRIL 5.

Date Selected for the Democratic City Convention.

The Primaries Will be Held April 4—The Delegate Representation Increased.

The meeting of the democratic city central committee in the city clerk's office last evening was largely attended, and all those in attendance expressed satisfaction at the outlook. Chairman Allen Hamilton presided, and H. W. Buck was elected secretary to succeed Thomas McGee, resigned. Without much discussion the committee decided to hold the primaries Monday, April 4, and the convention the day following, bringing the democratic primaries on the same day as the republican city convention. A resolution was passed to the effect that all candidates must give in their names before March 28, or their names will not appear on the tickets. A committee, consisting of Messrs. A. I. Friend, W. F. Ranke and R. C. Berghoff, was appointed to secure a room for the committee meetings and also secure a hall for the convention. An important act of the committee was the adoption of a resolution to increase the basis of representation in the convention. On motion of Mr. Berghoff it was decided to make the representation one delegate for every sixty votes cast for Mayor Scherer two years ago, increasing the number of delegates in the convention from seventy to eighty. A number of candidates for council attended the meeting. The committee will meet again next Monday evening.

DEATHS AND FUNERALS.

Last evening a telegram conveyed to Mrs. J. D. White, of 30 Lillie street, the sad intelligence of the death of her sister, Mrs. Josephine Pyle, of Wabash, Ind. The deceased had long been in poor health, but until yesterday was able to walk about the house and no one realized the seriousness of her condition until an hour or two before her demise. Mrs. Pyle was the wife of Frank Pyle, who has been engaged in the painting and paper hanging business in Wabash for several years. She frequently visited her sister in this city and had quite an extensive acquaintance here. The funeral will take place tomorrow afternoon at Wabash and will be attended by the relatives from Fort Wayne.

SCHORR.

Clara Catherine, nine-months-old child of Mr. and Mrs. A. J. Schorr, died this morning of spasms, at the home of the parents, on East Elizabeth street, near the feeble minded institute. The funeral will occur Thursday morning at 9 o'clock from St. Mary's Catholic church.

TAGLMEYER.

Mrs. Anna Taglmeyer, wife of Frederick Taglmeyer, who for years has been the night watchman at the Old National bank, died at their home at 502 South Calhoun street, yesterday at 1:30 o'clock. The deceased had long been a sufferer from cancer of the stomach and death resulted from this malady. Besides her husband she leaves five grown children. The funeral will occur Wednesday afternoon at 2 o'clock from the residence.

THE CHANGE MADE.

Messrs. Rurode and Krimmel Become the Owners

Of L. B. Root's Stock in the Dry Goods Store of Root & Co.—Will Be Known as Rurode & Company.

Messrs. E. C. Rurode and Charles Krimmel have completed their negotiations with the administratrix of the estate of the late L. B. Root and purchased all Mr. Root's stock in the big dry goods store of Root & Co. The firm will hereafter be known as Rurode & Company, the company being Mr. Krimmel and several employes of the firm who have grown up in the store. It is not determined which of the employes will be stockholders, but Mr. Rurode will deal fairly with all who have been faithful and competent in their duties at the store. The articles of incorporation are being prepared by Attorney Samuel Morris and will not be filed for several days.

Messrs. Rurode and Krimmel are well known and experienced business men of Fort Wayne. For almost forty years has Mr. Rurode been connected with the Fort Wayne branch of Root & Co. He was one of the original stockholders when the store was established in 1860, and two or three years later became the manager, which position he has held ever since. He is a thorough dry goods man, understands the wants of his customers, always handles the best goods in the market and has ranked his establishment alongside the best in the country. The high standard attained in the past will be maintained by the new firm, which promises to reach the acme of perfection in its line

PETITION FOR BRICK.

Leith Street Residents Will Ask for a Pavement.

A Petition Being Circulated Among the Property Owners on That Thoroughfare.

It is certain that if the board of public works grants all the petitions for street pavements asked for this spring Fort Wayne will have as many paved streets as any city in the country. This morning a petition was prepared by the board of public works for circulation among the property owners on Leith street. A resident of the street called at the office and secured the petition, which he is confident will be signed by a big proportion of the resident property owners. The petition unlike most of those circulated recently, will ask for brick and not asphalt. It is proposed to pave from Hoagland avenue to Lafayette street. The board of works has petitions on file now for more streets than the city can afford to build, but this does not prevent property owners from filing others and allowing the board to make selections of such streets as it is believed most need the improvements.

A TOLERABLE criterion of the self-poise of the people may be found in the passiveness of Hon. Joseph Bombshell Foraker.

IN THE face of a real grave national crisis Hawaiian annexation is discovered not to be the peg upon which the destiny of the country must hang.

THE "spirit of '76," though decently quiet, is very much alive in this land. Should war come Spain will find our soil has been sown broadcast with dragon's teeth.

IF the naval court of inquiry succeeds in solving the mystery of the Maine's destruction it will establish itself as a capable body to investigate the greater mystery that involves the disappearance of Councilman Schuler's curfew ordinance.

THE Vanderbilts, the Belmonts, the Van Alens, the Havemeyers and other millionaire owners of palaces along the cliff at Newport, have had a war scare and are making arrangements to remove the immensely valuable furnishings and bric-a-brac from their houses to places of safety before a Spanish fleet comes that way and pounds the whole wealthy display into heaps of ruins. Let us hope these wild alarms are ill-timed and unfounded.

SO LONG as the government is bustling with every sort of preparation for war it must expect its assurances of peace to be discounted by the people. However, that is no reason why anybody should get excited and begin shooting Spaniards. Wait. If there must be a fight there will be plenty of time for it.

AS THE public mind is greatly centered on naval matters now, attention is called to the fact that it was eighty-five years ago, February 25, 1813, that the American cruiser, Hornet, under the brave Captain Lawrence, met and utterly destroyed the proud British brig Peacock. That gallant officer was killed in a subsequent naval engagement the following June. His dying words, "Don't give up the ship!" have become the motto of the navy.

BECAUSE Americans have not become a nation of total abstainers there are many persons inclined to believe that the temperance work of the last thirty or forty years has not accomplished much. Nevertheless figures can be produced to show that there has been a great decrease in the amount of drinking. In 1860 the annual yearly production of whisky was 2.86 gallons per capita, while today it is but .87 gallons. The temperance people should find much reason for encouragement in those figures and good cause to redouble efforts that have been so successful.

WHATEVER course is pursued by this government with respect to the destruction of the Maine will be based on the finding of the naval court of inquiry. Until that court has completed its investigations and made its report the people may as well keep cool and wait until there is certainty of war before stripping for a fight. The government is diligently getting ready for the worst that may happen and if the worst does happen fighters will then be needed, quite a few thousand of them. But this sanguinary zeal to go forth at once and convert Spaniards into stark and unlovely mortal remains when there are no Spaniards to be got at has all the absurdity of bombast. Keep cool. Don't get ready to do something until you know what's going to turn up. Hive your warlike energy in a storage battery where you can draw on it if need be. War will furnish plenty of national disturbance when war comes. Let us enjoy peace while peace lasts.

THE series of gospel meetings in the Y. M. C. A. building was inaugurated yesterday most auspiciously. The attendance at the noonday services and in the evening was large beyond expectation, the interest earnest and lively and the promise of fruitful results bright. The Ministerial association has decided to lend all aid in its power and this means that there will be a grand co-operation of Christian forces and influences. The ministers can unite in no more promising labor than in working together for the success of these meetings and there is no question that their most earnest efforts will be devoted to the meetings. There is a widespread belief that one of the results of the services will be to awaken an interest that shall culminate in the re-establishment of the City Y. M. C. A. and the restoration of the splendid building to the association and to the Christian purpose for which it was erected. Such a prospect as this should be sufficient to enlist the heartiest co-operation not only of the ministers, but of all Christian people. Let the meetings be given every aid to success.

EDWARD VERNEY, in an article on "The Inhabitants of Milk," states that if a drop of milk be mixed with gelatine and examined under a microscope some hours afterward it will be found that three different operations have taken place through the engineering skill of bacteria. In one part of the gelatine excavations have been made, in another little hillocks have been thrown up, and in a third liquid lakes have been formed. Through the careless methods employed in milking cows and the subsequent exposure of the fluid to contaminations it should never be used as a beverage except after heating at a temperature of 140 degrees Fahrenheit. Of the infectious influences to which milk is open Mr. Verney mentions among others the non-rejection of the first flow from the udder of the cow, the dust and dirt on the coat of the animal and the unclean hands of the milker. From a cow where absolute cleanliness was enforced the milk contained only 330 bacteria. The same volume, taken under the usual conditions from a mixed herd, showed 15,000 bacteria. Professor Fleischmann says that thorough sanitary precautions are almost totally ignored in the milking of cows.

George Ungerer, formerly pressman for the Aldine Printing company, leaves Thursday for Chicago. Mr. Ungerer will remain in the "Windy City" if he is successful in securing a position. He is a first-class pressman, fully qualified to work in any pressroom.

Lafayette Courier: "Col. David N. Foster, of Fort Wayne, and Capt. C. J. Murphy, of Evansville, have been reappointed members of the board of trustees of the soldiers' home by Governor Mount. These gentlemen have served as members of the board ever since the establishment of the home and have been faithful in the discharge of their duties. Their reappointment is a just recognition of their ability and of the excellent work they have done and meets with the warmest approval throughout the state."

Mr. and Mrs. Robert Penman, who are sojourning in Mexico this winter, celebrated the second anniversary of their marriage in Cuernavaca, Mexico, on the 11th of February, at Hotel Eggers. The Two Republics says of the event: "The spacious parlors of the hotel were brightly illuminated, a fine orchestra furnished excellent music for dancing, a bountiful lunch was served in an adjoining room and the various liquid refreshments were abundant in quantity and of desirable quality. Solos were rendered by Mr. Penman and Mr. Fleq, with accompaniments on the guitar by Mr. Eggers and violin by Mr. Noyes. In addition to these attractions the dancing, social converse and numerous toasts and witty sayings combined to form a most delightful evening's entertainment."

On Thursday evening, March 3, at Harmony hall, there will be given an opportunity for every man or woman to test his or her motor powers. In fact it has been whispered that a large number of axes and saws have been ground and sharpened, and that a large number of hardware stores have been contemplating closing their doors because of an unprecedented dearth in hammers. The meaning of all these mysterious operations are not preparations for war with Spain—as some timid hearts have surmised, but simply a supper that will be given by the enterprising and good-looking gentlemen of Heidelberg Reformed church. There will be men cooks and men waiters—men with spotless aprons and men who will escort the feeble (?) visitors to their respective seats. Big men and little men, fat men and lean men. In fact the whole atmosphere will savor of men. The ladies are bent on viewing with each other in choosing the handsomest waiters and not a few of them will glance with pardonable contempt upon the weak (?) efforts of their opposite sex. But the gentlemen are determined to take revenge, and they will defy competition. Come and see them on Thursday evening. Bring all your formidable instruments along with you and attack the viands as you would the Spaniards.

The journeymen lathers of the city, at a meeting last night in Trades and Labor assembly hall, organized a union. The new union starts out with seventeen members. The organizing committee of the Trades and Labor council installed the new union. The following temporary officers were elected: President, Charles Ransbottom; vice president, Frank Crance; secretary, John J. Burg; treasurer, William Barnes; sergeant-at-arms, Peter Barnes. The next meeting will be held next Monday evening when formal application will be made for a charter from the American Federation of Labor. The union will also elect delegates to the Trades and Labor council at this meeting.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

BOARD OF WORKS.

Contract Awarded for Printing the Annual Reports.

Petition Filed for Asphalt Pavement on West Columbia Street—Other Business Transacted.

Yesterday the board of public works awarded the contract for printing the annual reports of the city departments to the Aldine Printing company. The price was 78 cents per page, for 500 volumes. The other bids received were: The Journal company, 81½ cents per page; W. D. Page, 97 cents; J. M. Singmaster, 93 cents.

A petition, signed by nearly every owner of West Columbia street property, asking for an asphalt pavement, was received, and the engineer was instructed to prepare plans and specifications for the work. The street, from Calhoun street to Harrison, will be paved with asphalt block. It will be the first pavement of the kind in the city. A crossing at Barr and Berry streets was paved with block asphalt five years ago, and the wear has been scarcely noticeable. There is talk of having Calhoun street paved with this material, but it is said that the majority are in favor of sheet asphalt.

C. R. Fairfield and others petitioned for a street lamp at the corner of Fox avenue and Ferguson street. The request was filed.

Aaron Ilsehy and others offered a remonstrance against the proposed building of a sewer in the alley west of Franklin avenue, from Spring street to Archer avenue.

To the Young Face,

Pozzoni's Complexion Powder gives fresher charms; to the old, renewed youth. Try it.

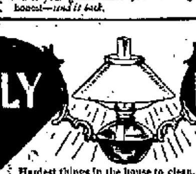

To Grocers.

We have direct proof that peddlers of washing-powders say that the stuff they're selling is "made in the same factory" as Pearline—*and that buying from them will save going to, or ordering from, the grocery store* Do you want people "saved" that. You have these same washing-powders in stock. Possibly you are giving them out, whenever you can, in place of Pearline. You are trying to push them into notice; they are trying to crowd you out. You think you are "making more money on them." But will it pay you, in the end? 545

Send It Back Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—*send it back.* JAMES PYLE, New York.

SETTLES NERVOUS BANKRUPTCY

Statistics show that ninety five per cent. of all persons engaged in business in the United States fail. Investigation shows that men who succeed are men of brains, strong nerves, great will-power. Ordinary food and drink cannot supply the vital force which people with active brains and body require. Bicola Pills feed the nerves, make the mind bright, muscles strong, MAKE FLESH AND BLOOD and new energy, and give perfect manhood with all that perfect physical condition means. Bicola Pills are a great tonic for WOMEN—they give health and strength to the special organs and nerve centers. THE TURNERS OF PHILADELPHIA make Bicola Pills.

J. E. Sucker, Chief Clerk National Hotel, Washington D. C., testifies as follows: "I was all run down, had no appetite, troubled with sleeplessness, pains in the head, was a shadow of my former self. Your Bicola Pills have given me most wonderful relief. I have gained over twenty pounds, have a good appetite, sleep well and am my old self once more."

HE UNDERSTOOD FRACTIOUS HORSES.

—Jones—Well, I declare, Smith! are you such a coward, that you have to put the harness on that horse with a pitchfork?

2—Let me show you. You want to walk right up to him bold as a lion and let him know you're not afraid of him.

3—There! Now do you see how easy its done?

4—Smith—Yes; very nicely done. Thanks.

STRUCK BY A TRAIN.

Robert S. Castle the Victim of an Accident.

Accidents, Incidents and Items of Personal Nature That are Gathered About the Depots and Shops.

Robert S. Castle lies in a precarious condition at Hope hospital. He received his injuries this morning while engaged in attending the switch lights at Glasgow avenue for the Nickel Plate. A passing freight train struck Castle and hurled him under a car which was standing upon the siding, his head striking the railway iron with such violence that it rendered him unconscious. He was picked up by the trainmen and carried into the Summit City Soap factory, where Dr. J. M. Dinnen examined his injuries and ordered him taken to the hospital. Besides the wound on the forehead, sustained by striking the rail, Castle is badly injured about the back and side, and his chances for recovery are not considered very good. The unfortunate man resides on Dwenger avenue and is employed as a teamster, by the city. He attends the switch lights for the railway company in the early morning and at night.

PERSONAL AND OTHERWISE.

Brakeman J. Johnson, of the Pittsburg, is sick.

Five Klondikers left this city, over the Pittsburg, this morning.

Charles Muhlenbrock, of the Pittsburg Machine shop, is sick and off duty.

H. Monnewisch, of the Bass blacksmith shop, is very sick with rheumatism.

Road Foreman A. H. Polhamus is on duty again after a severe illness of over a week.

Fred Lenz, a springmaker in the Pittsburg blacksmith shop, is kept from his work by sickness.

Pittsburg engine 41 was turned out of the shops today and engine 23 was taken in for repairs.

William Bloomhuff, of the polishing department of the electric works, is sick and off duty.

Two of the children of Machinist Louis Altevogt, of the Bass shops, are down sick with the measles.

G. M. Johnson, a flue cutter in the Pittsburg shops, is today attending to some private business in Huntington.

Machinist John Sinclair, of the Pittsburg shops, is attending a funeral of a relative in Van Wert today.

Nickel Plate Engineer Frank Talley and Fireman D. Vreeland are taking a brief rest from their labors.

The electric works, which had been closed for inventory for several days, resumed operations this morning.

Nickel Plate Brakemen S. Stevenson and J. C. Heslen are taking a few days' lay off to look after some personal affairs.

There were two sections of Nickel Plate train No. 3 yesterday, the second train having a baggage car and seven coaches.

Sickness keeps Louis Gronau, of the Pittsburg planing mills from his work. Leo Ballard, a painter in the same shop, is also sick.

Contractor James M. Henry is erecting a house on West Jefferson street, which he will occupy with his family when it is completed.

A railroad in Texas has been granted special rates by the state railroad commission in order to meet the competition of the wagon roads.

G. R. Layher, who has been with the Wabash lines some years, has been appointed freight agent of the company at Buffalo, its new eastern terminal.

R. M. Biggs, of New York, is here measuring the Pennsylvania trainmen for their summer uniforms. He visits the city twice each year.

The bolt header in the Pittsburg blacksmith shop operated by Charles Barnes, is in operation again after an idleness of several days on account of repairs.

C. H. Newton, Wabash freight agent, has been very busy for several days preparing for the new way freight rates made necessary by the acquirement of the Buffalo division.

General Superintendent A. W. Johnston, of the Nickel Plate, was in the city over night, coming in on No. 5, in his private car, and leaving for Chicago by special train this morning.

Assistant General Foreman C. W. Hall, of the Pennsylvania shops at Wellsville, Ohio, was in the city yesterday packing up his personal effects and shipping them to his new home. He is pretty well pleased with his present position, but says that Wellsville, while a good place, does not come up to Fort Wayne in his estimation.

Nickel Plate engine 8 went to the Stony Island shops yesterday for general repairs. Engine 212 was turned out of that shop yesterday and sent to Conneaut to go into yard service.

This morning John J. Mossman assumed the office of division freight agent of the Wabash, with headquarters at St. Thomas, Ont. He will have charge of the entire Buffalo division of the line.

William Zutterneister, of 18 McClellan street, returned home this morning, after a pleasant visit with friends and relatives in Richmond, Ind. He resumed his place in the electric works this morning.

Superintendent G. L. Potter returned from the east last night. He says there will be no new engines built in the Fort Wayne shops this year. There appears to be plenty of repair work to keep the men busy, however.

John Slater, the veteran blacksmith at the Pittsburg shops, is not recovering from his illness as fast as his friends would like. He is able to walk about, but is very weak and will probably not be able to work for several weeks.

The Crouch Construction company on Saturday moved its large steam shovel from Benton Harbor to Anderson, where a considerable amount of excavation is to be done in making contemplated improvements by the Big Four.

The railroad commissioners of North Carolina have ordered passengers fares, after March 23, reduced to 2½ cents per mile, first-class, and to 2 cents per mile, second-class. The roads will apply to the United States court for an injunction.

Mr. and Mrs. Ben McFerran, of 343 West Jefferson street, returned from Birmingham, Ala., this morning. They were the guest of relatives in that city about two weeks. Mr. McFerran is again at his desk in the Pittsburg store room department.

If the anti-scalping bill now before congress becomes a law, the eastern lines out of Chicago will establish a joint agency at a saving to the roads, it is stated, of at least $200,000 a year in office rent and clerical hire, and a number of men will be out of employment.

Horace Seely has resigned the office of commercial agent of the Wabash at Des Moines, Iowa, and the duties of Assistant General Freight Agent J. D. Lund have been extended to cover those formerly performed by Mr. Seely. Mr. Lund's headquarters are at Kansas City.

Christian Sohle, of Savilla street, and his family are preparing to move to Danville, Ill., where they will reside in the future. Mr. Sohle attends to the work of cleaning dining cars for the Wabash company, but as there are no cars of that character running on this end of the line, it was found necessary to transfer him to other quarters.

The Baltimore and Ohio Southwestern has changed its dining car system from table d'hote to la carte, with the result of increased profits, better service and greater satisfaction on the part of the patrons. The cars are open for business during the entire time they are on the train and the innovation seems to have met with the approval of the passengers.

KIHM IS HERE.

"Dummy" Arrived in Fort Wayne Last Evening.

Springfield Is Having Its Troubles at the Present Time—The President of the Club Resigns.

George F. Kihm, "Dummy," arrived in the city yesterday afternoon looking in better condition than at any time in the past two years. He has been training for his sparring match with Andy Yates and is hard as a rock. Not only does he promise to make a fine showing at the athletic exhibition next Friday night for the benefit of the base ball club, but he says he will "play the game of his life" and he looks as if he would. "Dummy" has nothing but friends in Fort Wayne and they were all glad to shake him by the hand.

SPRINGFIELD HAS TROUBLES, TOO.

Springfield Sun: "The Springfield Baseball association is once again confronted with a serious problem upon the solution of which depends, in great measure, the future of the club. President J. W. Garnier has resigned, and John Coleman stated last evening that it was his intention to resign as a director of the association.

"The problem is not one of finances, for the actual condition of the association now in this particular is as good or better than it was last year. The present board of directors, whatever may be said of their shortcomings in some respects, have not neglected the finances, but instead have exerted every effort to replenish a depleted treasury with a fair degree of success. The question which now menaces the club is a question of management, and the association, standing as it now does without a president, and, it seems, without a competent and available man for that position, faces an uncertain future.

"Ex-President S. L. Nelson, of the association, suggests a plan, which commends itself very favorably to the situation:

"'I am heartily in favor of turning this franchise over to Manager Whistler,' said Mr. Nelson; 'and I believe that if he had absolute control of it he would make it go. I am in favor of calling a meeting of the stockholders, going down in our pockets for enough money to pay off the old debt, buy the new uniforms and put up the $500 guarantee and then say to Manager Whistler: "Here is the franchise and the equipment. Try it in Springfield and if the people show by their lack of patronage that they do not want a ball team, go where they do want you."

"'I have been accused of wanting to get control of the club, but I will assure you that I am positively out of it and $1,000 in cool cash would not tempt me to undergo the ordeal of last years' experience.

"'I would be perfectly willing to stand much more than my proportionate share of the assessment necessary to carry out this plan, and am fully convinced that it offers the best way out of the present dilemma.'"

GANZEL A STAR.

Steve Griffin, who played with John Ganzel in Grand Rapids last year, writes: "Pittsburg has the star first baseman of the league in Ganzel. I used to shut my eyes and throw from short to him and he would root 'em up. He will lead the big league the same as he has done in the Inter-State and Western leagues."

$10 in cash given away each week at Reuben S. Patterson's.

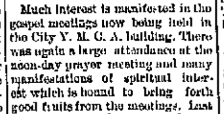

The DePauw Glee club will appear at Westminster church in the near future. Negotiations in that direction have nearly been completed, the only matter not yet decided being the date of the entertainment.

Much interest is manifested in the gospel meetings now being held in the City Y. M. C. A. building. There was again a large attendance at the noon-day prayer meeting and many manifestations of spiritual interest which is bound to bring forth good fruits from the meetings. Last night the attendance was larger than anticipated. Addresses were made by Revs. Framo, Zartman and Cooper. Tonight the principal talk of the evening will be by Rev. Framo.

A WESTERN FIRM'S ENTERPRISE.

[Rochester Democrat and Chronicle, Thursday, February 24, 1898.]

"It is learned that the entire stock of piece goods owned by the Rochester Tailoring Co., tailors to the trade, which is discontinuing business, was bought last week by I. & A. Friedlich, proprietors of two large clothing houses in the west, the 'Sam, Pete & Max,' store of Fort Wayne, Ind., and the 'Utica,' of Des Moines, Iowa. The stock consists of between 7,000 and 8,000 yards of fine woolens, of a much better quality than is generally used in ready-made clothing, and was purchased at a very low figure. The buyers are now having the goods manufactured here under their personal supervision, thereby saving the profit of manufacture, and will be able to create something of a sensation in the cities named, as the circumstances of the purchase and manufacture will place them in a position to offer remarkable inducements."

The above announcement explains itself. All heavy Suits and Overcoats bought from the ROCHESTER TAILORING CO., which were finished, HAVE arrived, and

ARE NOW ON SALE AT OUR STORE.

All are high grade merchandise, made up in strictly first-class style, and which we now offer at prices which defy competition.

The circumstances of this large purchase enables us to offer unparalleled values in high grade MEN'S and BOYS' SUITS and OVERCOATS.

It took a lot of nerve to plank down such a large amount of money, as this purchase had to be paid for with spot cash. But having the interests of our patrons at heart, we had to take hold. Don't miss the opportunity. The values are stupendous.
